GOP Makes Clean Sweep of Suburbs

The Editor's column

by STUART R. PADDOCK

We are as glad as the successful and unsuccessful candidates that the election is over. Regarding the results we are not going to say, "we told you so."

We rejoice with the winners and congratulate the losers over the excellent showing they made in "the camp of the enemy."

Locally, it was a clean battle. We hope the municipal elections next April will be as clean.

In reality the greatest victors are the organizations of both parties and civic groups that made such an effort to get out the vote.

•

There should not be anything unusual in being an honest man, says John Nelson, Palatine business man, who was so prompt in returning $92 he found in a woman's purse last Saturday that the loser had not missed it.

He disdained any reward and John's honesty would never have been told had not Delores Wilkening, owner of the purse, asked Nelson Flowers to send a bouquet of flowers to the finder.

John's youthful son tried to tell his dad that the money was just in time for Christmas gifts, but when the flowers came he admitted that dad was right, "it pays to be honest."

•

Since March there has been a big decline in issuing of home building permits compared to 1955 for the same period. That decline in September building permits in Arlington Heights was from 59 to 18; Mt. Prospect 37 to 19; Palatine 51 to 5.

While school officials have reason to be a bit jubilant over the home building drop, published future plans of subdividers are more than a little alarming. A recent headline in Cook County Herald, "Unwrap $175 Millions Project in Elk Grove," and "Mt. Prospect School Enrollment to Double by 1960" indicates we will have the school problem with us for a long time to come.

Municipalities and Cook county building restrictions appear to be the last defense line of our schools, until the state legislature puts some teeth in existing laws that will require subdividers to assmue major responsibility for the education of the children of the families they bring to the community.

If the newly elected members of the state legislature make good on their promises subdividers, as some of them do now, will not be able to thumb their noses at school boards after next July.

•

We were told this week by 3 girls that the editor should not try to censor this column because the teenagers never read it.

Thus, the remainder of this week's column is directed solely to the dads. The information therein was gathered at a recent meeting of Arlington Heights Kiwanis club.

The speaker was Capt. Boone of Juvenile Court. He said, "The growing lack of communications between teenagers and parents is increasing." He placed the blame particularly on the tension of the business world which caused fathers to return home at night tired out—too tired to enjoy his family.

Too often the son's only contact with his Dad is when he asks him for the keys to the car, so that "he can take his girl to a movie." The son and the father both know that the car will not get into the family garage until 2 hours after the movie is out.

There would be a better understanding between sons and fathers if the Dad took sufficient interest to ask his son "what have you been doing, who were you with; where have you been?"

The TV prevents family counseling—nobody can talk when the program is being watched.

Boys should talk with father, not to father. The less speaking between 2 individuals, the less understanding, which in turn lowers the respect for each other.

He thinks it is beneath his dignity to either walk or ride the bus to school.

The average high school student wants to travel by car, either his own or as a rider. When he looks for extracurricular thrills, the automobile takes him, not 20 miles from home, but 50 to 75 miles.

"Vandalism is seldom committed in one's own community," said Boone. "When he buys liquor, it is not from the home liquor dealer who knows him."

The more Capt. Boone interviewed boys who get into trouble, the more he is convinced that corrective measures are not the sole responsibility of the police. Unless the boy gets the right training at home, the problem of delinquency will spire upward.

Boone closed his talk with, "The boy who asks himself, 'What would my dad think?' will keep out of trouble with society."

Democrats Fail To Woo New Suburbanites From The GOP

Cook county Republicans can breathe easier.

Democrats made few inroads on traditionally GOP territory in northwest suburbs — in spite of 3 huge housing developments in which Democrats claimed considerable strength.

Professional politicians had their eye on Rolling Meadows in Palatine township, Hoffman Estates in Schaumburg township, and Dunhurst Heights in Wheeling township. All 3 are made up chiefly of middle income families recently moved from Chicago.

Republicans carried all 3 towns, with varying degrees of strength.

* * *

HERE IS a summary of voting:

ROLLING MEADOWS gave Eisenhower 77 per cent of their vote, Dirksen 63 per cent, and Marguerite Stitt Church 69 per cent.

In the governorship contest, Gov. Stratton managed to salvage 56 per cent of the vote in spite of considerable resentment among Rolling Meadows residents opposed to Stratton's approval of the disconnection bill. Stratton ran well behind his GOP running mate, Lt. Gov. Chapman, in every precinct. Chapman received 64 per cent of the vote.

* * *

HOFFMAN ESTATES trailed staunchly GOP Schaumburg township only 1 per cent in giving 79 per cent of its vote to Eisenhower. Stratton received 63 per cent, Church 76 per cent, and Dirksen 72 per cent.

DUNHURST HEIGHTS, concerned with the Wheeling school crisis, gave 55 per cent of its vote to Democrat Austin in the gubernatorial race. But in other contests, it stayed close to the Eisenhower coat tail, giving Ike 74 per cent, Church 67 per cent, and Dirksen 64 per cent.

Ike Appeal Swells Mammoth Majorities In 5 Townships

President Eisenhower's magnetic personal appeal and war clouds over the Middle East combined Tuesday to bail out a scandal-badgered Republican state administration.

Gov. Stratton and his team of state officials were swept along to victory with the unprecedented Eisenhower landslide.

Ike's careening bandwagon, which ran roughshod over any Democratic illusions of substantial suburban support, also picked up Sen. Everett Dirksen and Rep. Marguerite Stitt Church (13th) in their bids for re-election.

Eisenhower amassed 80.6 per cent of the vote in the townships of Palatine, Schaumburg, Wheeling, Hanover, and Elk Grove. Paddock Publications had predicted last week that the President would carry the area by more than 70 per cent of the votes.

In many precincts, election machinery bogged down under the unexpected crush of voters, resulting in queues of citizens lined up at some polling places for as long as 90 minutes.

Although more than 36,500 citizens of the 5 townships voted, the percentages fell slightly below 1952.

Of the total registered voters, 87 per cent voted in Schaumburg, where registrations were 100 per cent higher than 1952; 88 per cent voted in Hanover; 91 per cent in Wheeling; and 95 per cent in Elk Grove. The 1952 figures were 2 per cent higher than this year's.

Percentages for Palatine township were not available Wednesday because of faulty registration totals.

In the new 3d state senatorial district, which includes Palatine and Rolling Meadows, Jackson Boughner (R) won over Oliver Dilks (D) by 5,382 votes.

In the race for the 3 seats in the lower house of the Illinois legislature from the new 6th district, the winners were John W. Carroll, Arthur Simmons, and Thomas Halpin.

* * *

CARROLL, a Park Ridge publisher, lead the pack with an impressive total of 127,827 votes.

The other Republican elected, Simmons, carried 117,427 votes.

Winning the third seat for the Democrats was Halpin of Skokie, with 59,338. Harry Kinser of Des Plaines polled 45,534 votes.

W. Russell Arrington easily won re-election as state senator from the 4th district.

Spectacular suburban majorities helped elect Ben Adamowski as Cook county's first Republican state's attorney since 1928.

* * *

ELK GROVE township emerged from Tuesday's election as a Republican champion. With 95 per cent of its registered voters casting ballots, the township gave 85 per cent of its vote to Eisenhower, 81 per cent to Dirksen, and 71 per cent to Stratton.

Democrats made their best showing in Palatine township with Eisenhower taking 75 per cent of the votes, Dirksen 72 per cent, and Stratton trailing with 62 per cent.

Sen. Dirksen and the Stratton administration team all lagged behind the Eisenhower vote.

Judge Richard Austin, gubernatorial candidate, carried only 1 precinct in the 5 townships: Dunhurst Heights, Wheeling.

Election Coverage

Paddock Publications has set another "reporting" record with this week's coverage of election results in northwest Cook county.

A team of reporters and tabulators worked well into Wednesday morning to prepare the most complete and accurate accounting and analysis of voting in 5 northwest townships.

Responsible for election coverage were Marian Phillips, Anita Wilkins, Laura Skoog, Marianne Scott, Tom Brennan and Charles Hayes.

Eisenhower Leads Ticket In Arlington Precincts

The 15 precincts comprising the village of Arlington Heights signified their approval of a second term for President Eisenhower by margins ranging from 4 to 1 to 11 to 1.

Village-wide, the President crushed the aspiration of Gov. Stevenson by winning 8,182 to 1,436. This gave Ike about 6 of every 7 votes in the village.

According to unofficial tabulations compiled by Paddock Publications, Mr. Eisenhower led the Republican ticket by 136 votes. Runnerup for the highest number of votes was Benjamin Adamowski, who topped incumbent State's Attorney Gutknecht 7,946 to 1,394.

* * *

GOV. STRATTON'S totals lagged considerably behind those of other Republican candidates, a fact widely attributed to the effect of the Hodge scandal. Even so, Stratton easily won over Richard Austin within the village, 6,725 to 2,806.

Results of other important races were: U. S. senator: Dirksen, 7,523; Stengel, 1,862; 13th Congressional district; Mrs. Church, 7,926, Mrs. Leys, 1,563; state senator, 4th district: Arrington, 7,653, Schiller, 1,685. and state representatives, 6th district: Carroll, 11,943½, Simmons, 10,467½, Halpin, 2,643, and Kinser, 2,013½.

Precinct 3, bounded by Harvard, Ridge, Thomas and Northwest hwy., returned President Eisenhower his apparent lowest winning margin. The precinct liked Ike to the tune of a 4 to 1 margin.

In contrast, Precinct 23, including much of Scarsdale and Scarsdale Estates went for the President by a margin of better than 11 to 1.

Sanitary District Carries

All of northwest Cook county is now within the Metropolitan Sanitary district, according to scanty election returns from northern and southern areas of the county up for annexation.

Paddock Publications incomplete tabulation of results from Wheeling, Barrington and Palatine townships showed that local residents voted against annexation by a small margin.

But if the trend started continues, the prediction that the southern portion of the county would outvote and drag the northwest into the district will come true.

* * *

DESPITE campaigns for a "no" vote by area officials, only Barrington township (with 1,620 against to 735 favoring) firmly voted to stay out.

In Wheeling township the result was 2,898 against and 3,387 in favor of joining. Pro-annexation forces lead in Palatine township, 749 to 738. Later results could change all these results.

No results on the referendum were available from Schaumburg and Hanover townships.

The Blue Ballot revenue amendment was trailing in Wheeling and Palatine townships while the banking article amendment was leading in both townships.

High School Takes Option On Acreage

An option to purchase approximately 38 acres on the northeast corner of Hintz and Buffalo rds. west of Wheeling has been taken by the high school board of education.

PURCHASE at an agreed price of $1,500 an acre will be dependant upon approval by the voters of district 214 at a referendum to be scheduled later. An option is also being sought by the board for property in the southern half of the district.

Despite the addition to Arlington high school and the construction of Prospect high school on Foundry rd., to be opened next fall, continued growth of the district—one of the largest in the Cook county suburbs — indicates the necessity of acquiring additional sites for future development while they are available and at reasonable cost.

A RECENT survey made for the district by Northwestern university projected a high school enrollment at present rates of growth of 10,000 pupils by 1963.

The single-shift capacity of Arlington and Prospect high schools together will be 5,000.

Three methods of projection studied in the survey indicate capacity use of the 2 schools by either 1960 or 1961.

The survey recommended that serious consideration be given to the acquisition of three new sites, pointing out that property desireable for school use is rapidly being subdivided and withdrawn from the market.

Arlington high school Booster club will hold its mid-winter sports rally in the gym Wednesday night, Nov. 14, at 3 p.m. with entertainment and refreshments planned for parents, students and fans.

Teas Increase Membership Of N.W. Hospital Auxiliary

Mrs. Everett Wagner, president of the Northwest Community hospital center women's auxiliary revealed this week that over 1400 members have been realized as a result of the membership teas given throughout the 6 townships in the hospital area during the past 3 weeks. Hundreds of applications for membership are still coming in.

Mrs. Wagner and the vice presidents of each township are more than happy about the overwhelming enthusiasm shown in the hospital area and wish to remind all women that they still have time to join the auxiliary as charter members.

January 1st is the deadline for charter membership and all women are advised to send their application cards in as soon as possible.

The total membership of the women's auxiliary, representing all townships in the hospital area, will comprise the parent organization and will officially be known as the "auxiliary." This organization will be composed of branches, one from each township, in the future, but for the time being will operate on the "parent level" only.

Arlington Greens

Hospital Auxiliary

More than 200 new members have been enlisted in the Northwest Community Women's auxiliary drive for a community hospital through a series of "coffees" held in Arlington Greens homes.

Alice Johnson, in charge of the auxiliary's efforts in the Greens, expressed her gratitude to the 22 women who hosted the meetings and said the new mewberships were "way beyond expectations." "Specifically, 201 women were signed up and all but 30 are Greens residents," Mrs. Johnson said.

The Greens hospital drive chairman said she is grateful for the efforts of the coffee hostesses who "went beyond the call of duty" in enlisting the non-resident members who otherwise may not have been informed of the auxiliary's work.

Despite the reports, the drive is not yet ended. Any new members will be welcomed if they will call Mrs. Johnson at CL 3-8025 and express their intention of joining. An election of officers for the Wheeling township unit of the auxiliary will be held next month. Members will be advised soon of the time and place, according to Mrs. Johnson.

Meeting

The guest of honor at last Thursday's Greens meeting was Carl Klehm, nurseryman, who showed slides on the use of spring flowering bulbs, peonies and flowering shrubs. Door prizes went to the following: Gordon Baer, an indoor mum plant; Elmer Zieman, a red azalea mum, which could be later planted outdoors; Harry Compton, a bag of daffodil bulbs, and Harry Reiman, a bag of tulip bulbs.

A miscellaneous baby shower was given for Twila Eichelkraut October 17 by Pat Miresse at her home at 679 Clarendon ct. Guests were Dorothy Braun, Pauline McNamara, Jean Thorsen, Shirley Zolp, Ruth Raines, Eva Hembd, Florence Horner and Dutch Stebbins.

Top Manager To Tell How To Form 'Watchdog' Group

Members and guests of Arlington Heights League of Women Voters will be told tonight how to form a citizens "watchdog committee" in connection with the new council-manager ordinance recently passed by the village.

Speaker will be Bert Johnson, Evanston village manager. Guests at the 8 p.m. meeting in Arlington Heights junior high school will include village officials and representatives of home owners' associations.

It was erroneously reported in last week's editions that the meeting was slated for November 1.

Johnson, recognized as one of the nation's top city managers, was graduated from the University of Wisconsin with a degree in municipal administration and finance.

He has been associated with the Municipal Finance Officers asso-service, and the Illinois Legislative council.

* * *

HIS PAST experience includes manager positions with Lebanon, Mo., and Boulder, Colo., as well as finance director of Winnetka for 8 years. He has been city manager of Evanston since 1953.

In 1953 Johnson was selected as one of 4 city managers to be guests of the Republic of West Germany for a month's study tour of Germany, including a tour of the east and west sectors of Berlin.

This meeting of the League of Women Voters is open to the general public. Mrs. Robert Phillips is program chairman.

The Gasoline Business Is Tough Enough

A frank protest by a service station operator against the introduction of further competition on his corner injected a human interest note into an otherwise dull zoning hearing at the Arlington Heights village hall Thursday.

* * *

FRANK PIETROLONARDO, operator of a station at Thomas st. and Rand rd., just outside the village, made the protest. He objected at a county zoning board hearing against rezoning of a third corner at the intersection to permit construction of a third filling station.

Carter Woltman, Rt. 2, box 196, said he would lease the southeast corner to an oil company if rezoning from farming to B-1 business were granted.

* * *

IN A SECOND hearing at the Palatine village hall an Arlington Heights restaurant operator, Tates K. Ladas, 13 E. Miner, asked for rezoning of a lot along Algonquin rd. for a drive-in restaurant. The lot is at the corner of Linden ln. and Algonquin, rd., a block east of Meacham rd. in Plum Grove Estates.

Both petitiions were taken under advisement. (AF

Public Peeks At New Wing This Weekend

The doors of Arlington high school's new $1,078,066 addition will swing open to the public Saturday and Sunday afternoon.

Local taxpayers will get their first formal glimpse of the much-needed addition during the 2-day open house.

PLANS include faculty members leading guided tours through the building, starting at 2 p.m. and lasting until 4. Visitors may come and leave as they please during these 2 hours either Saturday or Sunday.

* * *

Guests may also see other sections of the building. Busses will be available to take visitors to the new Prospect high school, now under construction on Foundry road.

Arriving guests are to enter any door in the new addition and gather in the library. Conducted tours will begin there and in the cafeteria, where refreshments are to be served. (AF

Pleading Mother Asks Help In Cat Search

An anxious Arlington Heights mother has requested the help of her north side neighbors in locating a cat which scratched her daughter Saturday.

Mrs. Andrew A. Mueller, 1011 N. Yale, asked that anyone owning or knowing of a large cat with gray head, white neck and gray and white markings on its back call her.

* * *

MRS. MUELLER hopes to have the cat placed under observation for several weeks; otherwise her daughter must receive rabies inoculations.

The daughter, 5-year-old Margie Sue, was scratched about the face by a stray cat she had picked up while playing near her home. (AF

High School Board Eyes Future Growth Of District

The Arlington district board of education considers completion of the addition to Arlington high school as only one step in a continuous attempt to keep education facilities at a "top-notch" level.

Prospect high school, with a completed student capacity of 2500, is well under way and will open next fall, to accomodate approximately 1000 freshmen.

Although intended for use at the outset as a freshman-sophomore school, it was designed to be used as a 4 year high school if that should prove to be the best educational policy.

* * *

EVEN WITH 2 complete high schools, the district, which is approximately equal in size to the city of St. Louis, may prove inadequate.

With such factors as suburban growth, the influence of expanding industries, O'Hare field, and residential developments such as 6700 homes proposed for Elk Grove, district 214 must always look to the future.

The board of education is, therefore, proceding toward the selection and purchase of additional sites while suitable open land is still available.

Such purchases will, of course be submitted to the voters as preliminary negotiontions are completed. (AF

Home Building Increases Here

Home building staged a recovery during October after a sharp drop-off in September, Arlington Heights Building Commissioner Fred Hammer Jr. reported this week.

The October total of 38 single family home permits was slightly under the monthly average so far this year but was about double the number of homes begun during September.

* * *

VALUATION of the October homes $754,700, for an average value of $19,860. Other classification were: 17 addition and alterations, $46,710, and 20 garages, $19,208.

For the first time this year there were no permits issued for commercial structures. (AF

Save Eyesight Of Halloween Prank Victim

A truckdriver whose eyesight was feared lost as a result of a pre-Halloween pumpkin-tossing incident was back at work in Mt. Prospect Friday.

Doctors at St. Joseph hospital in Elgin removed 54 pieces of glass from the eyes and face of Neil Bolier last Tuesday. For a time they feared his eyesight would be lost or impaired but he suffered no permanent injury.

* * *

UNIDENTIFIED vandals threw a pumpkin from a speeding car through the windshield of the truck Bolier was driving east along Central rd. last Monday night. It happened several blocks east of State rd. near Arlington Heights.

Carl V. Milburn, Bolier's employer at Milburn Bros. contractors, said Bolier was discharged from the hospital Thursday and is "just about recovered." Bolier lives in Carpentersville. (AF

Emancipated Polish Females Swallow Bitter With Sweet

by BILL DILLINGHAM

The women of Poland have become enamcipated, but not all of them are sure they like it.

Throughout Poland, one sees women young and old building roads. At train depots, the work of unloading freight cars is shared by women, too. Lady street cleaners are a common sight. They are referred to as "ladies" in the new classless Polish society.

Alimony no longer exists in Poland. After divorce, women are forced to fend for themselves independently, duplicating the position a man finds himself in. This acts as a deterent to divorce, much to the satisfaction of Catholic-minded Poles. Child support, however, must still be paid.

* * *

THERE ARE about 600,000 more women in Poland than men. This presents a marriage problem since most Poles only marry once.

To some Polish women, their newly-won equality is considered a great triumph. State propaganda and women's organizations constantly inform the ladies that they must bear the disadvantages of equality along with the advantages of it. Western lands are cited as inferior in this respect, supporting semi-equality in which women merely get more rightswithout more responsibilities. Polish women are repeatedly reminded that they have cause to be proud.

* * *

THIS EQUALITY, however, has now reached amazing degrees. In the night clubs of Warsaw, to mention a single example, it is considered completely proper for a strange man to approach a married couple and request the woman to dance. This is done in even the most expensive places in Poland.

After the dance, the stranger usually kisses the lady's hand and thanks the man she was sitting with. These two last acts, however, have been condemned by energetic thinkers. True equality, they point out, would demand no kiss at all, otherwise one given by the woman on the man's hand in return. Also, thanking the man for dancing with his wife or girl friend conflicts with advanced thinking.

* * *

ALL OVER Poland today, men take no offence whatsoever at this practice. It is considered as proper as shaking hands.

Employment equality has also been reached. Uniformed lady police officers patrol the streets, although due to an injustice on the part of nature, are not generally set to tackling and wrestling with burglars. Traffic control is more in their line.

Considering again certain "Natural" differences, they are permitted to retire at 55 years of age, while men have to wait until they reach 60.

* * *

WOMEN NOW work as border officials and street-car drivers. They wear slacks and they smoke cigarettes. Proportionately large numbers ride motorcycles.

Beneath this new fashion of equality, however, many women openly admit that they would rather play the inferior role. They prefer a kiss to a handshake, the name Kitten instead of Comrade, nylon stockings instead of corduroy pants. (B10

You can find out for yourself next week when Illinois Bell plays host to residents of Arlington Heights, Mt. Prospect, Rolling Meadows and Prospect Heights at "Open House" festivities in the company's central office building, 106 W. Eastman st., Arlington Heights.

AN EXHIBIT which will enable visitors to try their vocal skill is the "Voice Mirror," a recording device that provides a true reflecttion of one's telephone voice.

This is only one of many special displays and demonstrations visitors will see, according to R. E. Kozeliski, telephone manager for this area.

"We'll have other displays which visitors can try out for themselves," Kozeliski said, "including to see themselves on television. A closed-circuit TV camera and receiver of the type Illinois Bell provides many of its business customers will give budding TV stars a photogenic test.

"BUT THE REAL enjoyment of a visit to the telephone office is seeing what goes on at the heart of telephone service . . . where all the arteries of wire finally are connected, and the everyday conversations of people are sped across the miles. Visitors will see the work that goes on day and night to keep their telephones at home ready for action—from any emergency call to a chat with the next-door neighbor.

"Everyone is invited to drop in during our Open House. It will run from Tuesday, November 13, to Thursday, November 15. We'll be open for your visit 1 to 4:30 each afternoon and evenings from 6:30 to 9 p.m.

"It will be an entertaining tour for everyone, children and grownups alike." (B7

Winter Tuneups Vital Part Of Home Tree Care

Winter tuneups are as important for the family trees as for the family car.

But few home owners realize the need for winterizing trees, even though a few simple precautions often can remove a serious threat to both life and property.

Davey tree experts advise removal of all dead, dying or broken tree limbs before winter storms send them crashing down on buildings, electric lines or passersby. A broken limb on a tree may cuase broken limb on a tree may cause branch-shattered roof may cost hundreds of dollars to repair.

The value of safety measures will become apparent when the winter winds howl and when sleet storms leave trees bowed under tons of ice.

While careful pruning provides safety insurance for persons and proper feeding safeguards the tree itself. Roots continue to grow after branches are bare and until the soil finally becomes quite cold to a considerable depth. Food nutrients taken up by the roots now will be stored away to help your tree get off to a running start in the spring. (DL

Here Are Some Timely Tips For Fall Dinner Tables

Hunters are in the fields and wild ducks are on many fall dinner tables.

Mrs. Pearl Janssen, foods specialist at the University of Illinois, offers some suggestions for preparing a wild duck meal.

Clean and prepare the duck for baking. Sprinkle the cavity with salt. For stuffing, many people prefer a small onion, onion slices, apple quarters or chunks of celery to the bread dressing usually used in poultry.

* * *

BAKE UNCOVERED on a rack in a shallow pan with the breast down for about half of the baking time. Place thin slices of salt pork on the back to keep the bird from drying out.

Most people like wild duck served either medium-rare or rare. The baking-time guide for rare duck is about 20 to 22 minutes per pound at 350 degrees F. If the bird is young, you might bake it at 450 degrees F. for 20 or 30 minutes, depending on the size.

Other typically fall foods will complete this meal in fine style. Wild rice is a natural accompaniment for wild duck. And you might want to serve a tossed salad with a rather tart dressing. Hot breads served with currant, wild plum, wild cherry or other tart jellies are usually favorites for this type of meal.

* * *

A TRAY of fresh fruit, crackers and cheese would be a good selection for dessert. You might place a baby Gouda in the middle of the tray and surround it with other kinds of cheese, crackers and fruit.

For the fruit, you might serve plums, pears, grapes and apples.

'Pirates Of Penzance' Cast Tryouts Are Sunday

"Pirates of Penzance" by Gilbert and Sullivan will be the first offering early next year of "Music on Stage, Inc."

Production of "Firefly," previously announced as the initial play has been postponed.

Roy Kane, who directed the first Prospect Heights community production "Pinafore," in 1954, will direct "Pirates."

* * *

SUNDAY at 2:30 p.m. cast tryouts will be held at schoolhouse, Palatine and Schoenbeck rds. in Prospect Heights. Interested persons for chorus only are also asked to be present.

Parts and their voices follow: Major-General Stanley, baritone; Pirate King, bass; Samuel, bass-baritone; Frederic, tenor; Mabel, soprano; Edith, Kate and Isabel, medium voices; Ruth, contralto.

Copies of the score are available now at the home of librarian, Mrs. George Mod, 100 W. Willow, Prospect Heights.

* * *

KANE WILL be available to continue tryouts into the evening Sunday if someone cannot get there at the scheduled afternoon time. If later tryout appointment is desired, Mrs. Alfred Loll, secretary, CL 3-1195, may be called for check on time schedule.

Membership in "Music on Stage" is open to anyone interested in its fundamental purpose, "to present musical stage productions not-for-profit, for the enjoyment of its members, and for the entertainment of the general public."

Lessons in English

Often Misused

Do not say, 'We are going ahead with our plans independent of the others.' Say, "INDEPENDENTLY (adverb) of the others."

Remember that a person may "partake of" a meal or anything else with other persons, but he does not "partake of" a meal or anything else by himself.

Do not say, "I didn't sleep any last night." It is better to say, "I didn't have any sleep last night."

Do not say, "The rule is not appliable in this instance." Say, "is not applicable in this instance."

Do not say, "The United States are equal to the emergency." Say, "The United States IS equal to the emergency."

The noun "burglar" has not accepted verb form. "Burglarize" and "burgle" are colloquial. Instead, use "rob," "break in, or "enter."

Often Mispronounced

Retrousse (turned up — of the nose). Pronounce rett-rou-say, accent last syllable.

Qui vive. Pronounce kee-veev, accent second syllable.

Troche (medicinal tablet or lozenge). Pronounce troe-kee; accent first syllable.

Sobriquet. Pronounce soe-brikate, accent first syllable.

Anesthetist. Accent second syllable, not the third.

Esoteric. Pronounce ess-oe-tehr-ick, accent on third syllable.

Often Misspelled

Patronize; "ize," not "ise." Serviceable; observe the "ea." Beneficence; four "e's" and one "i." Gorgeous, "eous"; glorious, "ious." Villain, two "l's"; vilify, only one "l." Languor; observe the "uor."

Word Study

'Use a word three times and it is yours. Let us increase our vocabulary by mastering one word each day. Words for this lesson:

FORMULATE; to express as in a set form; to state definitely and clearly. "These statesmen will formulate the foreign policy."

Benefit Checks

Social security benefit checks are being made ready this month for some 1250 northwest wives, widows and retired women workers between the ages of 62 and 65 and will be delivered in December, the Northwest District Social Security office disclosed this week.

These women, according to district manager Julius Berman, filed claims in August, September and early October to take advantage of the recent Social Security amendments permitting benefit payments for months beginning with November of this year to qualified women who are 62 or older.

The amended law provides that full widows' benefits shall be payable to the widows of insured workers beginning at age 62, rather than at age 65 as formerly. It also provides for the earlier payment of benefits to wives and retired women workers, but at a permanently reduced rate.

Women between the ages of 62 and 64 who have not yet filed claim or made inquiry about their eligibility should do so now, Berman advised. Inquiry may be made by telephone or letter or in person. Claims must be filed in person. The office is located at 4255 Milwaukee ave., Chicago 41.

Swedish Glee Club, Top Pianist Set For Concert

An outstanding evening of entertainment for music lovers of all types is coming November 11, in the new auditorium of Maine township high school.

The world famous Chicago Swedish Glee club joins with Bill Snyder, reknown Decca recording pianist, for "Two Concerts in One" sponsored by the Glenview Methodist men.

An added attraction will be music from the harp of Gene Bianco, considered one of the finest harpists in the country. Gene has been featured at Radio City Music hall, Carnegia hall, TV and on records.

* * *

THE CHICAGO Swedish Glee club has been widely acclaimed in both Europe and the United States. The group recently performed before both the Republican and Democratic conventions. Among the sacred, classical and folk songs presented will be such favorites as "Swing Low."

Bill Snyder, who played at a similar concert sponsored by the Glenview Methodist church 3 years ago, "captures" audiences with his artistry at the piano and his clever ad libbing.

PROCEEDS of the concert will benefit the new education building and youth center of the First Methodist church, 727 Harlem ave., Glenview.

Information concerning the concert may be obtained by calling the church offices or Robert F. McCullough, 1410 Brandon rd., Glenview. (Bill

Area Chairmen, Special Committee Chiefs Report On Hospital Drive

The final meeting of chairmen of all departments of the campaign organization of the Northwest Community Hospital Center was held Monday at the organization's new headquarters, 818 E. Northwest hwy., Arlington Heights.

Nicholas M. Lattof, general chairman, presided at the meeting at which reports were heard on completion of plans from all area chairmen and the chairmen of special committees.

Lattof announced the appointment of Harold W. Dotts, 600 Banbury and Harold B. Rose, 618 S. Belmont, Arlington Heights, as co-chairmen for the drive. Mr. Rose was in charge of manufacturing at International Harvester prior to November 1, 1956 and Mr. Dotts, for 11 years vice-president and sales manager of the Jewel Tea Co., is president of Stonegate China Co.

John Bartizal, chairman of the board of Benjamin Electric Co., reported the plans and progress of the hospital's industrial committee of which he is chairman. Mr. Bartizal told of the completion of research and evaluation of all industry in the area and of highly encouraging results on the beginning of solicitation.

* * *

"THE NEED for the hospital is so desperate and so well known that there can be no question or difficulty in securing recognition of industry's responsibility in this drive," Mr. Bartizal said. "Our personnel director has told us repeatedly of employees who could not get access to a hospital in time of need."

Mr. Bartizal then told his latest experience in which the husband of a secretary of the company was seriously injured in an auto accident. Taken by ambulance to 2 hospitals, the patient was refused admission due to lack of room.

Mr. Bartizal's story set off a chain of similar emergency tales in which expectant mothers were forced to abandon their long trek to a hospital and stop off at a local gas station for delivery and in which heart, appendix, and cerebral hemorrhage cases were forced to wait at home, often under oxygen provided by the fire department, while doctors worked for hours and even days trying to obtain space in hospitals.

Perry R. Thomas, chairman of the publicity committee, presented the new brochure, window cards, and question and answer circulars and reported all details of the organization's activities in publicizing the forthcoming campaign.

* * *

ANDREW SIM, chairman of the auditiing committee, described the plans of his committee in receiving and safeguarding pledges and cash contributions as they are accumulated.

Tom H. Hildebrand reported as co-chairman of the committee on Memorials, Foundations and chain stores with William H. Ball, on this committee's elaborate plans to solicit all chain stores, national organizations serving the area, unions and golf courses, and described some of the many rooms and departments of the new hospital available for memorial gifts.

Carl Mees, chairman of the drive in the rural areas, expressed his confidence that the farm residents of the area would do their just and equitable share in the drive . . "if there is any rural area left when the hospital is built."

* * *

JACK HUGHES, vice-president of Littlefuse Co., and co-chairman on the industrial committee, reported encouraging preliminary results in solicitating doctors of the area and the securing of significantly generous pledges in all test interviews.

Louis G. Langpop, secretary and treasurer of the Sun Electric Co., and chairman of all committees in Mt. Prospect, reported his complete organization as ready to go on November 12 with a total of 340 solicitors.

Mr. Langpop announced the appointment of Fred Meeske to head a committee of 12 key business people to solicit the businesses of Mt. Prospect. This committee will start with a kickoff dinner meeting to be announced for next week.

William Windsor, reporting for Richard Windsor, chairman of Rolling Meadows, reported completion of the Rolling Meadows organization of 200 solicitors to cover some 2000 homes in his area.

Earl Riley, co-chairman with Byron Sayre for Arlington Heights, reported an organization now complete with over 400 solicitors in 8 town sections. Section chairmen then reported details of their plans. They were Tom Pray, Lester Ploetz, C. W. Mills, Patrick O'Dea, Robert Phillips, Gilbert R. Stocum, Matthew Cockrell, and K. W. Goodpasture.

Mr. Mills told the group that this was the first time in his varied experience in soliciting an organization for a fund drive in which there was 100 per cent acceptance from those he asked to work on the drive.

* * *

REPORTS ON the special gifts group organized by Hugh E. Nichols were made by Hugh Ellis, Henry Winterbauer, Robert Malcolmson, Earl Ogier, Robert Blackburn, Henry Wallace, Fred Jasper, and Edward Carlisle. An organization of 120 solicitors were reported to solicit special gifts in the Arlington Heights area.

Donald Florence, chairman of the Arlington Heights business-gifts committee, reported plans and progress for the solicitation of business in Arlington Heights with an organization headed by Richard Black, Edward Jensen, William Trude, Barney Erickson, Victor Beisler, and Dr. Quintin M. Reilly.

George H. Sheppard, chairman for Prospect Heights, announced the formation of his organization with the assistance of Robert L. Chyrchel and Joseph Schneller.

* * *

L. B. ANDERSEN, chairman for Wheeling, told of final plans for organizing the Wheeling area with Ray Burlingham, John Sicks, Lloyd Kelm and Fred Cargill.

Lattof conducted the meeting with the announcement of plans for Palatine under the leadership of W. R. Sundling, and Roy La Londe and preliminary plans for the organization of Barrington and Des Plaines.

A mass kickoff meeting was set for the evening of November 15 at the Arlington Heights high school and for Mt. Prospect at the Park Department Headquarters the evening of November 12. (B7

Proof Of Age And Disability Necessary For Social Security

by JULIUS BERMAN
Northwest District Manager, Social Security Administration

Apparently all of the doctors who have studied Juan Periera, the salty little Indian from Columbia, are agreed that he is a very old man.

Whether he is 150 years old, as some estimate, or 167, as he himself alleges, is really unimportant. At either age he is the oldest living active human being this side of Genesis.

But old as he may appear, if Juan were otherwise qualified to receive Social Security benefits (which, of course, he isn't) he wouldn't get them unless and until he could present some documentary proof of age.

And his reaction, when asked for such proof, would probably be the same that we so often get from our claimants.

Up to this point, our interview with them is friendly and serene; there is peace on earth and the air is heady with good will. Then we ask for proof of age. Immediately there is a reversal of mood. Our claimant darkens. He reflects consternation, anger, insult. After a pause, he finds words:

* * *

"Proof? I told you I was 65 last February! Don't you believe me?" Often, I suspect, we fail to convince him of the truth. Sure we believe him; that's not the point at all. The point is that we cannot certify eligibility based on our belief, any more than on his. Regulations require that statements of age and relationship must, ordinarily, be supported by documentary proof.

Usually proof of age is simple enough to present, mostly because our regulations are very liberal as to acceptable types. Almost any old record—it doesn't have to be a birth certificate—is acceptable for our purposes. Rarely is a claim delayed because some good proof of age is not handy.

When it comes to proof of disability, however, our experience so far has been quite different. These proofs are sometimes months in coming.

* * *

JUST AS with age, disability must be proved by documentary evidence regardless of physical appearance. In part, this documentary evidence takes the form of medical reports submitted by the doctors who treated or diagnosed the disabling illness or injury. It is the claimant's responsibility to get his doctors to submit these reports to us.

And doctors, these days, have such a heavy and constant demand on their medical skills that more often than not they are forced to let their paper work pile up. Sometimes many weeks pass before they can spare the time for report-writing.

But waiting for the medical reports accounts for only part of the total delay. Our own processing is responsible for as much or more.

* * *

WE HOPE eventually to cut down materially the length of time it now takes to reach a determination of disability. For the present, there are several good reasons why it takes us so long.

The first is the volume of freeze claims received—70,200 of them since the beginning of the year. The second is the newness of the program. It takes time to recruit and train sufficient staff, including doctors, for this specialized phase of our operations. The third is the sheer complexity of the factors which must be considered in most cases, coupled with the duty of arriving at an equitable and proper judgment in each case.

IT IS because delay at this time is inevitable that I encourage disabled persons to file their claims now. There are no cash disability payments to be made before July of 1957. There is a six-month waiting period before any payment can be made.

This means that a qualified person would be paid beginning with July, even though he didn't file But it's possible, if he waits until December to file, that his case may not be completed by July.

He will, in such a case, be paid for July and subsequent months anyway, but the payment may be late. So it's well to get the claim started as soon as possible.

THERE'S MUCH more to tell about the disability freeze and disability insurance benefits and I'll continue on this subject for the next two or three weeks.

If you want more information faster than that, don't hesitate to telephone my office at SPring 7-3413, or visit us at 4255 Milwaukee avenue, Chicago, or write and ask for leaflet number four, which tells about the rights of disabled people under the Social Security Act.

Milk Is An Ideal Item For Reducing Your Weight

Milk is an ideal food to drink and use in other ways while on a weight reduction program, according to Geraldine Acker, University of Illinois foods specialist.

Milk is an excellent source of protein, minerals and vitamins necessary to diets, whether for reducing or just as insurance to keep tipping the scales at the same mark.

MISS ACKER emphasizes that good diets are based on fulfilling the daily nutrient requirements at a lower calorie count.

Milk will not cause you to put on weight if it is included in your daily allotment of calories. If your calorie count needs to be very low, you can use skim milk. It has all the food value of whole milk except for the fat content and vitamin A, and it has only half the calories.

Decorators' Magic

J. W. Boress, Interior Decorator for Westgate Home Furnishings

THE COLOR SCHEME

The magic of color and light is around us from the moment we are born.

We are surrounded by it where we live, play and work. In planning a color scheme for a room in your home I find that no color is "bad" in itself, only wrong companions can lead it astray.

The knowledge of what colors to look for, and how to pick them depends on the kind of a house you live in. Town decorations tend to be more mannered and formal, country decorating leans toward the casual which provides comfort and leisure.

* * *

IT WOULD give me great pleasure to let you in on a decorators secret, known only to the profession about building a decorating color scheme without the use of color charts.

The theme and selection of colors usually is found in a patterned fabric in draperies, wallpaper, colored dishes, pictures, a decorative rug, a precious heirloom piece or even the colored pages in your newspaper. The first step is to pick your favorite color from the subject and build the other colors around it. Keep it simple, use shades from bright to dark for interest in contrast.

In illustrating how this is done, lets use a drapery color. The predominate color may be a cool green with a background of gray white or beige, including a soft brown for the floor, sofa in pink, chairs in gray, white or beige. Accents of strong bright colors.

If your favorite color is green, these effects distinguish the room as a Green room. If your favorite color is Red, select background with gray, blue or green, floors and walls in the neutral tones.

* * *

IF YOUR favorite color is pink, pink is a delicate and subtle color.

It can warm you with addition of a little yellow, leaning toward the peach tone, and can be cooled with an addition of a little blue leaning toward the violet. Pink blends with grays, browns and sharp blues and could be emphasized with white and red.

The theme of a family room, such as a den, could be set-up with a grained piece of wood. Light and dark brown tones from the wood could be used for background, drapes, furniture, ranging from cream beige to deepest chocolate browns. Use yellow-brown with blue, green or orange as accents.

If you can learn this theory of color expression, you'll have acquired the "natural color eye" to plan every combination to build a decorating color scheme for all your rooms. Next installment — Draperies. (B7

Chicago Officials Foresee Automation For Post Office

A vision of automation promised for the Chicago post office was described to several hundred employes Monday by Deputy Postmaster General Maurice Stans.

"This will not affect your jobs, except to make it less tedious," he assured them first. "The growth on mail will keep our career work force completely occupied."

OVERHEAD conveyors, utilizing ceiling space to conserve floor area, will be the first step to begin shortly as Chicago becomes a pilot project for other big cities.

"Our aim is a post office without hampers, hand-trucks, or dollies—a post office where the mail never comes to rest."

By late 1957, he said, Chicago should have machines that automatically "cull" mail, face letter mail up, and then use an electronic "eye" to find the stamp and cancel it. By early 1958, he predicted production of a machine that will electronically "read" addresses, sort, and stack letters.

* * *

"WE SHALL never be satisfied until we can assure next day delivery of letters between any 21 cities in the United States," he concluded. "That may sound improbable now, but with the jet plane upon us and the guided rocket just around the corner, it is not an impossible goal."

Also being checked, he said, is electronic transmission of facsimile messages which "could mean the instantaneous relaying of a letter across the continent."

Congratulations, lucky you!

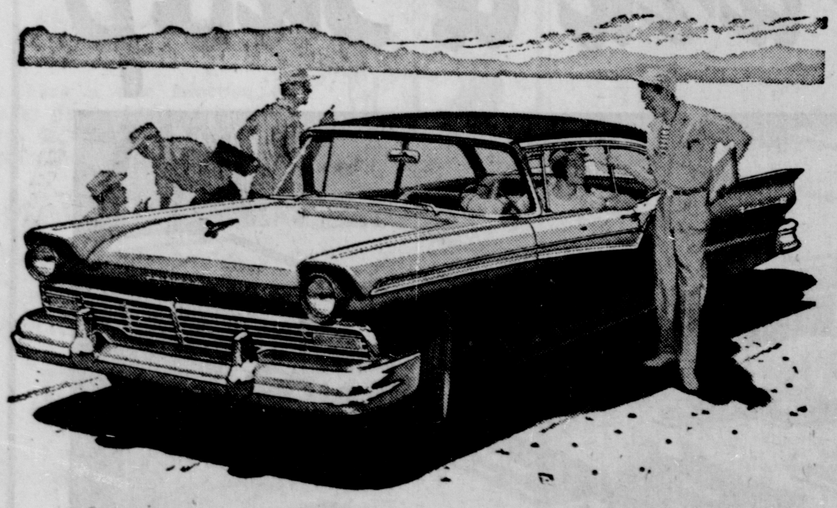
New kind of Ford makes record run of decisive importance to '57 car buyers!



A new 1957 Ford traveled 50,000 miles at an average speed of better than 108 mph. . . . including all pit stops . . . to smash 458 National and International records in a single test. Never before has any car been so severely tested . . . so successfully proved!

Just recently—on the Bonneville Salt Flats in Utah, two new '57 Fords completed the most exhaustive endurance test in history—under supervision of the United States Auto Club and the Federation Internationale de Automobile. They were Ford-prepared pre-production models, exact duplicates of the ones your Ford Dealer now has for sale.

These Fords completed the 50,000 mile run in less than 20 days. One averaged 108.16 mph for the entire run . . . the other over 107 mph! *These averages include time for all pit stops.*

The test shows without qualification what Ford's new Thunderbird V-8 engines* will do. But this was no mere demonstration of speed! It was a convincing demonstration of the superior quality of the *whole* Ford car.

It shows the *superior endurance* of Ford's running gear, brakes, body materials, steering—*every part of the car*. For *without* such built-in stamina, Ford could never possibly survive such torturous treatment.

*A special 270-hp Thunderbird 312 Super V-8 engine available at extra cost. Also, an extra-high-performance Thunderbird 312 Super V-8 engine delivering up to 285 hp.

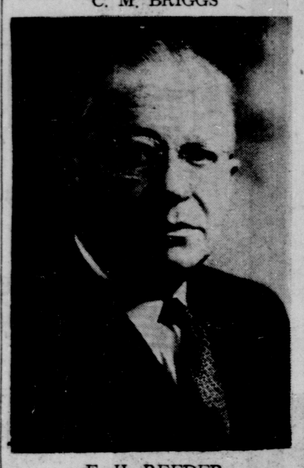
Arlington Area Educational

More than 500 teachers and administrators from the greater Arlington area will gather at the high school Monday for day-long meetings planned to stimulate the thinking on the critical educational issues of our suburban area.

The day is one of 3 teachers' institute days declared each year by the Cook county superintendent of schools. Both public elementary and high school students will have a post Armistice Day vacation.

The program for the day will center around 2 speakers

C. M. BRIGGS



E. H. REEDER

who have been chosen for their knowledge of and concern for the rapidly developing educational programs of this area.

* * *

THE MORNING session will open with an invocation by Rev. Herbert Caston, Acting Director of the Methodist Student Foundation, and will feature Channing M. Briggs of George Williams college in an address entitled "The Impact of Bluging Suburbia upon the lCassroom Drama."

* * *

Briggs plans to analyze for the teachers the tremendous population movement away from the city to the suburbs. From various studies made in Park Forest and other suburbs, he will describe the kinds of people who are choosing to migrate, and the trends which are developing in the various communities to meet the needs of new residents.

* * *

THE EMPHASIS of the morning address will, however, be upon the problems and the place of the school in these growing communities. Briggs will describe what he believes to be a sensible division of labor among the various agencies and institutions of a community. This description will include the growing demands being made upon the classroom teacher.

Teachers may be assured that Briggs has taken his assignment seriously, for he has visited the Arlington area personally to gather information for his discussion.

In addition to his sociological training, the speaker will draw upon his experience as a school board member in Park Forest, and his work on community resource studies in Kalamazoo, Mich., and Niagara Falls, N. Y.

The audience will be given the opportunity to question the speaker during the late morning session.

A TRULY experienced and thoughtful educational leader, in the person of Dr. Edwin H. Reeder, of the University of Illinois, will challenge the afternoon audience.

Reeder will not be a stranger in this area, for during his 19 years at the University of Illinois he has appeared in the neighboring cities of Palatine, Evanston, Cicero and Chicago on several occasions.

In addition, he has been an ardent supporter of the PTA and other educational groups, and the author of six books on social studies and education administration.

"Safe Schools in a Dangerous World," is the title chosen by Reeder to describe the main theme of his address.

Reeder will describe the kinds of human attitudes and skills which will be needed to live successfully in our country in the future, and will then explain how schools must change in order to insure that children will have what they need.

* * *

THE SPEAKER is among those who believe "that the so-called fundamentals are necessary, but are not enough. Children must be taught to be individually thinking people in order to make our democracy succeed."

New buildings, better and more modern equipment, better trained and better salaried teachers are all necessary ingredients for the improved schools of tomorrow, according to Reeder.

The program was planned by Ernest Cavallo, superintendent of the Elk Grove school, and a committee of educators from Arlington Heights, Wheeling, Mt. Prospect and Prospect Heights.

Northwest Heighters

Newcomers

Newcomers to Arlington Heights are the Leroy Nelsons, who have moved to 935 Fernandez. Mr. and Mrs. Nelson are newlyweds and both work in the loop.

Lorraine Stasch brought her mother, Mrs. Alice Erisman, home from the hospital to recuperate from an extended illness. Mr. and Mrs. Erisman live in Chicago. Better than medicine are the 3 grandsons who are elated at having their grandparents stay with them. Many people who have been especially kind to help in various ways during this adjustment period, for which Lorraine is deeply grateful.

Halloween Party

Marjorie Lurtz had a Halloween party at her home October 31 and invited the following girls: Janet Hugg, Pattie Jo Faust, Sandy Jo Huntley, Lynn Matthews, Alice Brandeau, Peggy Kuhlman, Cindy Potts, Nan Rathsam, Jackie Miller and Karen Sorenson. Cheryl Smalley was co-hostess. The guests came in costume and a prize was given for the best one. The basement was decorated in the Halloween theme, which made the supper of hot dogs, potato chips, ice cream and cup cakes more enjoyable. After the party the girls went out tricks or treating.

Mr. and Mrs. Fred Oberhauser and their son, Fred Jr., have just moved to 816 N. Patton from the northwest side of Chicago. Mr. Oberhauser is a shipping clerk for the Chicago Furnace Supply company and Fred Jr. is a senior at Northwestern university, majoring in speech.

Right next door to the Oberhausers at 818 Patton, are newcomers Mr. and Mrs. Theodore Post and their sons, Allan and Mark. Mr. Post works for International Harvester in Melrose Park.

Saturday night Charlotte and Jim Ronayne went to South Holland, Ill., to the Harold Jacob home for dinner. Also invited were the Ernest Nelsons and their 4 children from Oak Park and the James Tuckers and their child from Villa Park. Charlotte, Mrs. Jacobs, Mrs. Nelson and Mrs. Tucker went to grammar and high school together.

"Coffee"

Mrs. Lurtz had a "coffee" Halloween afternoon for Helen Rathsman's mother, Mrs. Mae Eads, to introduce her to several of her friends and neighbors. Mrs. Eads is here from Nebraska visiting her daughter.

Saturday night the John Searfosses, the George Lurtzes and the Krilcics went to the annual Autumn Sights dance at Elmhurst. Before the dance the 3 couples had dinner together. The evening was a celebration of the Searfosses' 14th wedding anniversary.

Friends and former neighbors of the Irville Zimmermans will be interested to know that they are here in Arlington Heights visiting with the B. F. Battaglias for several days. The Zimmermans, who formerly lived at 908 Kaspar, left last April for the Virgin Timber lodge, Hayward, Wis. Now they and their young daughter are on their way to Carmi, Ill., where they will spend the winter.

Good Fortune

Ginny Read is stil excited about the $100 she won at the Elms center wishing well October 31. Luckily she was able to be present for the drawing, otherwise she would have lost the prize as did the Rolling Meadows housewife the week before. Ginny is still too stunned at her good fortune to know how she is going to spend it.

Florence Gordon had a party at her home October 30 to which she invited several of her friends and neighbors. Several games were played for which prizes were given before the guests went shopping for their items. No one knows whether Florence used their Halloween pumpkin for the pie she served, but it was delicious.

The Herman Koenemans had a party Saturday night and invited several friends who had not seen their new home. Mr. and Mrs. Charles McBee, Carol, Sharon and Jimmy were there from Midlothian, Mr. and Mrs. Richard Witom and Tom from Chicago and Mr. and Mrs. Gene Murawski from Cicero.

Free Dream Trip

Mr. and Mrs. M. A. Rhodes just came back from one of those dream vacations one hears about or reads about. They spent 8 days in the West Indies, where they stayed at the El Embajador hotel. Besides the usual sightseeing, they went night clubbing and enjoyed the attractions the island has to offer. The best part was that the trip was free. Mr. Rhodes, who owns Rhodes, Inc., won the trip for himself and Mrs. Rhodes in a contest sponsored by Fedders Air Conditioners.

Mr. and Mrs. Russell A. Carlson and their 2 daughters, Karyn, 10, and Kathy, 8, have moved to 638 N. Salem. They formerly lived on the outskirts of Arlington Heights. Mr. Carlson works for the Sun Electric company and Mrs. Carlson wrote the Wilson Community News for the Arlington Heights Herald.

Sunday the Stan Menschings celebrated his birthday with a dinner at which his mother and father and sister, Mrs. Gerald Sheahan attended. Mr. Mensching's mother is the owner of the Lorraine Ann shop. (A

Since the fire last week which destroyed his auto he has had numerous offers of the use of cars. He accept the offer of Wilbur Hartmann, which saved him from walking the 10 blocks to his office.

The judge says "thanks" to those who have made the offers and to the firemen who prevented any spread of the flames to the business district. (AF

St. Mark Lutheran Church Observes 10th Anniversary

St. Mark congregation will spend Sunday, Nov. 11, celebrating its 10th anniversary.

At both the 8:30 a.m. and 11 a.m. worship services, Dr. Frederick Schiotz, president of the Evangelical Lutheran Church of America, will deliver the sermon. Dr. Schiotz is known throughout Lutheran circles. He has served on the board of the Lutheran World Federation and with the National Lutheran Council.

In the evening, the program will be informal fellowship hour beginning at 5 p.m. At this time, through pictures and talks, the 10-year history of the congregation will be reviewed. A feature of the program will be a brief message from each of the past presidents who are still living in the community: Daniel Borgen, Arthur Dallia, Lester Schrieber, Stanley Petersen, R. Becker and Carl Beier.

DR. FREDERICK SCHIOTZ

Of the original charter membership there are still a number of families living in the area: Mr. and Mrs. C. N. Beier, Mr. and Mrs. L. A. Berg, Mrs. R. A. Bierwirth, Mr. and Mrs. D R Borgen, Mr and Mrs. A. F. Dallia Sr., Mr. and Mrs Ralph Ibbotson, Mr. and Mrs. Arthur Ibbotson, Dr. and Mrs. N. M. Nesset and Mr. and Mrs. Walter Wirsing.

Shortly before the formal organization of the congregation, the Rev. B. T. Anderson was called as its pastor and served for 5 years. During this period of the history of the congregation a parsonage and the first unit of its present church were constructed, and the congregation grew to approximately 400.

In the fall of 1951, the Rev. H. J. Rasmussen was called to serve the congregation. The congregation continued to grow and in the year 1954 its present structure was completed.

The congregation has now grown to the point where it numbers 1400 and at the present time the parsonage has been relocated and it is planned to begin work this year on an educational unit to provide facilities for its rapidly growing Sunday school. ..(AM

Fire Inspections can discover rubbish, also furnaces or hot pipes that are too close to flammable walls or materials. But, unless the citizens remove rubbish and remedy fire hazards, isn't it true that fire losses will not be decreased?

Mt. Prospect Church To Mark 10th Anniversary

St. Mark Lutheran church, Evergreen and Wille sts., Mt. Prospect, will observe the 10th anniversary of the founding of the congregation Sunday, Nov. 11, with festival services at 8:30 a.m. and 11 a.m.

Dr. Fredrik A. Schiotz, of Minneapolis, president of the Evangelical Lutheran church, will preach at both services. At 5 p.m., a fellowship potluck supper will be served followed by an informal program honoring charter members and recalling events of the past 10 years.

The congregation was formally organized as the Mt. Prospect Evangelical Lutheran church June 21, 1946, with 39 charter members, and has grown with the community to a total baptized membership of 1,375. Average Sunday school attendance is over 600 per Sunday. The congregation changed its name to St. Mark in 1954. With rapid growth, the congregation has also grown physically.

The first unit of the church building, erected in 1947, is now incorporated in the present church structure, completed in 1954. A parish house had previously been built in 1953 to help meet the needs of the Sunday school, and the third major building project, an educational building to be built on the former site of the parsonage at Evergreen and Pine sts. is soon to get under way. The parsonage has been moved to a new location on Wille st.

Rev. H. J. Rasmussen has been pastor since November 1951, succeeding the Rev. B. T. Anderson, now of Pacoima, Cal., who served as the first pastor. (AMPh

Girls bobbed for apples, caught apples on a string and played break the balloon. Refreshments were cup cakes, pop, marshmallows and candy.

Honey Bear Bluebirds

Barbara Johnson was hostess for a Halloween party at the last meeting of the Honey Bear Bluebirds. Seasonal games were played and refreshments of cupcakes and lemonade were served to the girls.

Helpin Pixies Bluebirds

Helping Pixies were transformed into other people for their Halloween party. There were spooks, gypsies, dancers, and several bums present. The girls ate marshmallows from a string, bobbed for apples, and danced the Hokey Pokey.

Pumpkin face cup cakes were served by hostess Carole Lorenzen.

Minnehaha Bluebirds

Each girl of Minnehaha Bluebirds was costumed and masked for the Halloween party. Carolyn Hugg, hostess for the day, conducted the candle lighting ceremony and served decorated cup cakes for the treat.

PEOPLE WISE MARTINIZE

Say, whatever happened to winter? I can remember back in the "Good old Days" when we had winter when we were supposed to have winter. I actually don't mind "Indian Summer" staying for awhile, but this is ridiculous. Used to be that you could get the longies out about the middle of October and wear them right through until May. This weather is so changable, it's getting so I don't know what to hock anymore.

You can be sure that winter will hit us one of these days and WILL YOU BE PREPARED? Will you have those winter clothes all cleaned and ready to go? Take a look around the house and see how you are set; I'll bet there's a snowsuit and many other items that you have been meaning to have cleaned. Now is the time to get them "MARTINIZED," so you'll be positive they have been cleaned by the best process and are cleaned thoroughly.

Don't forget that ONE-HOUR cleaning service that we offer and it's not just an idle threat; you can have your cleaning in ONE HOUR. Don't wait; get that cleaning done now.

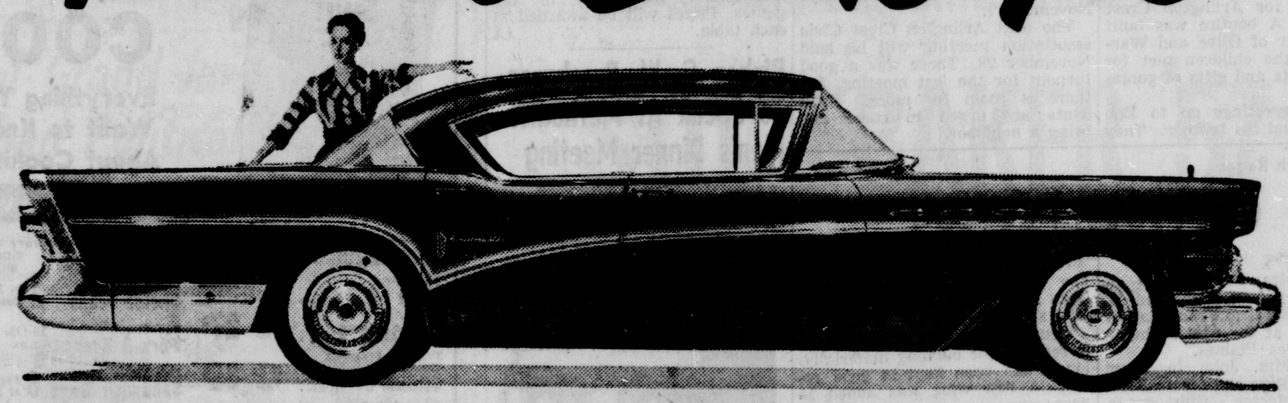
We got it! We got it!

Newest Buick Yet



You know all that talk you've been hearing about the 1957 new car models being *really* new?

Well, in the case of the 1957 Buicks it's true—*gospel true.*

We mean these 1957 Buicks are new in the precise and literal sense. We mean new from the ground up, and from gleaming grille to sassy taillights.

We mean new lowness, new styling, new bodies, new windshields, new controls, new safety-padded instrument panels, new safety steering wheels, new seating, new fabrics, new colors.

We mean new front end, new rear end, new frame, new braking, new steering, new handling, new riding, new roadability—a whole new chassis of greater solidity and safety.

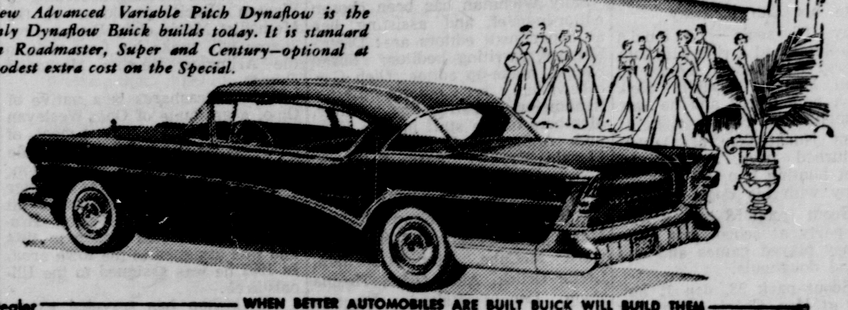
We mean V8 engines new from the crankshaft up—engines that deliver an all-time high in horsepower and compression from their 364-cubic-inch displacement.

And we mean, most of all, *an advanced new Variable Pitch Dynaflow*—so instant in the starting range—so utterly smooth and so totally full-range in "Drive"—that your need for "Low" is practically eliminated.*

So come take in these low-silhouette, these boldly beautiful, these *instantly obedient* Buicks for 1957.

Then you'll see why you can't blame us for being so fired up about it all—and how catching this excitement can be.

1957 BUICK Now on Display



*New Advanced Variable Pitch Dynaflow is the only Dynaflow Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

Postman Retires, Bids Adieu To Pine, Belmont

One of the most familiar faces in the neighborhood near the Arlington Heights library was missing this week.

Al M. Weidner, a slight man who had hiked up and down Pine and Belmont aves. delivering mail to his "friends" for the past 5 years retired last week.

* * *

HE HAD SERVED the area for many years before that, starting back in 1926 and continuing for a number of years until he was transferred to an Eastwood route.

Weidner is the first man to retire at the Arlington Heights post office. He completed 30 years as a postman Wednesday and although he could have worked on for several years, he decided to retire and "take life easy."

* * *

HIS ONLY DEFINITE plans are to put in larger-than-usual garden next summer in the backyard of his home at 120 S. State rd.

When he began to carry mail in 1926, only 3 carriers worked out of the post office, then located in what is now Kindler's confectionery at Davis and Dunton. His boss then was Postmaster William (Bill) Meyer and he had only 2 in the intervening span, Postmasters "Ben" Helfers and Mrs. Dodge. Now it takes 25 carriers to cover the village.

Fellow workers honored Weidner at a party Wednesday and presented him with a bag containing 50 silver dollars. (A

* * *

Pickets were temporarily withdrawn from Palatine last weekend as it had been reported that the developer of Lynwood had made an overture to the Arlington Heights Plan commission relative to the problem that will be created for the Wilson school district, should the subdivision expand as planned.

The next general meeting of the committee investigating the possibilities of establishing a tuition kindergarten for the Wilson school district will be held Nov. 12 at the home of Nancy Griffith, 1436 N. Race, at 8:30 p.m. It will be attended by representatives of the entire school district. Anyone interested in helping with the work of the committees to be formed is invited to attend. Included in the types of committees for which volunteers will be added will be fund raising, enrollments, teacher, transportation, equipment, legal requirements, good will and operations. (B-7

From Barn to Super Mart

A 70-year-old dairy barn at Oakton and Higgins has been converted into a modern super mart. The project was undertaken by Luke and Frank DeLegge, veteran food store operators.

Structurally it was not necessary to remodel the building materially, for it had been kept in good repair. A new wing was added 15 years ago.

The DeLegges have plans for converting the second floor, formerly a hayloft, into a hardware and department store.

A private road, lined on each side by trees, leads to the mart. A man-made duck pond also adds to the rustic effect of the property.

Round 'n About Westgate

Westgate Community Assn.

Last week's column listed the date of the next association meeting as being Wednesday, Nov. 17. This reporter was looking at the month of October on the calendar when she came up with the above date. The next meeting will be held at 8 p.m. Wednesday, Nov. 21, at the Junior high school. Even though this falls on the day before Thanksgiving, officers are looking forward to a good turnout. Nominations will be accepted from the floor for the forthcoming election. After this meeting ballots will be prepared for the election to be distributed to all members of the association.

There will be no meeting in December, with the dance December 8 taking its place. January will see the installation of the new officers.

Plan to be on hand November 21 and take part in this association meeting that everyone was so happy to see organized. A good attendance is a small reward to the officers, board of directors, and various committees for a job well done.

New Religious Film Produced By Viatorians

A new motion picture, "The Search," produced by the Chicago province of the Clerics of St. Viator, will have its premiere Friday in Chicago.

Originator and director of the movie is Rev. Francis T. Williams, C.S.V., director of the Viatorians campaign for vocations. Headquarters are at 1212 E. Euclid, Arlington Heights.

* * *

THE MOTION picture is dedicated to the cause of encouraging young men to select the religious life as a career.

Prints of the film will be available at no charge to schools, parent-teacher groups, churches, clubs and organization meetings. Requests may be directed to Father Williams, Viatorian Novitiate, Arlington Heights.

ARLINGTON'S NEW HIGH SCHOOL addition provides much needed office space. Two students are seen talking to administrative assistant Eugene Oliver. Offices of the superintendent, business manager, counselors, deans, speech correctionist, and curriculum director are also in the new section.

New High School Addition 'Ultimate' In The Modern

Visitors to Arlington high school open house November 10 and 11 will see some of the most modern and functional facilities available to schools today.

The addition, which meant an end to the unpopular "shift system" in use (by necessity) last year, raised the maximum student city to 2500.

Intended for an ideal enrollment of 2000, the building now houses approximately 2300 students.

* * *

COST OF construction and equipment for the addition amounted to $1,178,390.26. Remodeling was needed in some of the parts of the older section of the high school, and these costs were $60,524.

Total size of the building was increased to 246,000 square feet from a previous 161,714. A staff of 160 including 105 teachers, makes Arlington high their daytime home.

Architectural design of the addition is from the Tudor period decorated in pastel shades, with the color harmony being worked out in accordance with outside light direction.

* * *

ALL ADMINISTRATIVE offices are located on the first floor of the new wing. The superintendent, business manager, administrative assistant, counselors, and deans have offices in the addition.

Special features of the new building include the new 50' by 150' library, specially designed business education rooms, a girls' physical education room, an instrumental band room, 2 unique art rooms, a faculty lounge and work room, and the Little Theater. General class rooms all occupied by the English, core, and mathematics departments.

* * *

ALL ROOMS are equipped with a dual-channel sound system for showcases for student work.

Nicol and Nicol were architects and engineers for the new addition. General contractor was the E. W. Sproul Construction company. (ACM

John E. Crippen of 635 N. Merrill, Park Ridge and a River Forest resident have been indicted for sending political literature through the mails without identifying themselves as the senders.

Crippen, a partner in a chemical firm at 6727 Bryn Mawr, writes a free lance newspaper column, "Facts and Fancy about Communism" which he sends out free to newspapers.

* * *

CRIPPEN and the River Forest resident, Theodore W. Miller face a possible maximum sentence of 1 year imprisonment and a $1,000 fine.

Operating as the Anti-Communist League of America, they sent out pamphlets entitled "Do You Want a Communist America? How to Vote Against It."

Virginia Terrace News

The increasing stature of the relatively new subdivision of Virginia Terrace was illustrated this past week when the Vilage of Arlington Heights board of trustees contacted the Virginia Terrace Improvement association to ask for a recommendation of a resident to serve as a member of the Arlington Heights Plan commission.

At the last regular meeting of the board of directors of the V.T.I.A., the social committee's plans were discussed and it was announced that Virginia Terrace first full scale social event will be a Christmas dance to be held December 14 at the VFW hall. Wyn Buettgun and his orchestra will play. Everyone is urged to make early arrangements for baby sitters

Pickets were temporarily withdrawn from Palatine rd. last weekend, as it had been reported that the developer of Lynnwood had made an overture to the Arlington Heights Plan commission relative to the problem that will be created for the Wilson school district, should the subdivision expand as planned.

Wrestlers And Cagers Report For Workouts At Arlington

KICKIN' IT AROUND

by Bob Paddock

COLLEGE FOOTBALL is holding the spotlight in most sectors of the country now that high school grid schedules have been completed, with several West Suburban league boys gaining headlines . . . Down at Knox the Siwashers are leading the Midwest loop with Frank Stanicek of Hinsdale invariably scoring 1 or 2 touchdowns each week . . . This time it was 2 . . . Arlington's Johnny Eakins is one of several standouts for Carthage . . . Bruce Wilkerson, Heights grad, is strong man in the line for Grinnell . . . There are lost of others, about whom we hope to have final end-of-season reports before long.

Frank Stanicek

In the Big Ten Abe Woodson is leading the Illini with 551 yards on the ground for a 5.6 yard average, has caught 10 passes for 242 yards, has punted 28 times for a 38 yard average, and has scored 36 points . . . At Northwestern Bobby McKiever has 493 yards with a 6.1 average, has caught 11 passes for 138 yards, and is leading the league in punting with a 40.1 yard average . . . He's hailed the greatest thing that's happened to the Wildcats since Otto Graham.

At Purdue there's Lenny Dawson, who has completed 61 of 110 passes for 741 yards, including 27 TD's in his college career, with a career mark of 235 completions in 432 attempts and a gain of 3,210 yards . . . Then in the pro ranks we have Ollie Matson of the Chicago Cardinals who has gained 533 yards in 103 carries, and has a chance at Steve Van Buren's all-time NFL mark of 1,146 yards in 263 attempts.

John Kilcullen of Maine will be defending his IIAC cross country crown Saturday at DeKalb, competing for Northern Illinois, but will have toughest competition from teammate Dick Townsend of Rockford . . . Starting at right half for DeKalb Saturday was Tom Skubich of Hinsdale . . . Hank Mesewicz, Riverside freshman, started at end.

BASKETBALL is taking one of the winter spotlights at Arlington high where the Cardinals appear to have the heighth this time to keep up with other schools in the West Suburban conference. In the past the locals have had a little heighth, but have been short of enough of that necessary ingredient for a successful team. Fans hope the ability will be there, too, to provide some winning basketball.

Jerry Klement tips the ladder at 6-5, Bill Palmer 6-4½, Tom Jacobsen 6-4, Jack Weber 6-3½ and Bob Lockwood 6-3.

After that nice start there could be Dale Johnston, transfer from McHenry, at 6-2, and the trio of Bruce Bjorklund, Dan Vittum and Pat Brownell, all standing 6 feet. Jacobsen, Palmer, Lockwood and Bjorklund are farther along at the moment, with Vittum and Weber just hanging up their football suits Monday.

A couple of other prospects who may fit into Coach Howard Lester's plans include Tom Grey, transfer from West Bend who performed at quarterback for the gridders, and Ed Gilmore, transfer from Cincinnati who handles himself well.

★ ★ ★

VARSITY FOOTBALL is over at Heights with the local gridders finishing in a tie for fifth place, and gaining 6 points against them for the president's cup. Cardinals had an overall 3-5 mark, with 2-5 in the league. Actually, the WSC finish was unusual with every team but York having at least 1 tie, and the 4 second division schools copping only 6 contests among them. Frosh-soph squad also finished in fifth spot with a 2-5-1 overall record, with 5 points toward the prexy's cup.

The harriers finished in third, meaning just 3 points against them for the same honor. In fall sports where league titles are declared the Heights teams had a 13-14-1 record.

Varsity gridders finished with 7 juniors among the starters. Frosh-sophs playing the most steady ball during the season included Al Sander, Ed Whitelaw, Chuck Neumann, John Boehner, Dale Rothenberger, Jim Morris and Jeff Heintz. Most improved soph player was Bob O'Neil. Two sophs up with the varsity much of the season included Dave Buren and Don Gerken.

★ ★ ★

FALL SPORTS are now past tense at Arlington high school with the winter variety taking over. But a quick glance at the cross country roster this past season reveals a bright future for the next couple of seasons. Nine boys will receive letters, with only 3 of them seniors. Other 6 include 3 juniors and 3 sophs with the rest of the traveling squad composed of 1 junior, 3 sophs and 2 freshmen.

Arlington's harriers finished in third place in West Suburban league competition, if our figures are correct.

WSC championship in cross country is determined by adding the total points of finish in both the league run and the duals standings. Here's the way we see it:

Duals Standings	W	L	Pts.	League Run Pos.	Pts.	Championship Pts.	Pos.
LaGrange	7	0	1	1st	1	2	1st
York	6	1	2	2nd	2	4	2nd
Downers	5	2	3	6th	6	9	4th
Arlington	3	4	5	3rd	3	8	3rd
Glenbard	3	4	5	5th	5	10	6th
Maine	3	4	5	4th	4	9	4th
Hinsdale	1	6	7	7th	7	14	7th
Riverside	0	7	8	8th	8	16	8th

In case you haven't lost us by now, Arlington finished in a tie with Glenbard and Maine in duals, finished third in the league run, and third in championship, just 1 point ahead of Downers and Maine.

★ ★ ★

ATHLETIC DIRECTORS of the West Suburban conference met at York Monday and came up with a couple of recommendations, subject to agreement of principals. The AD's voted to recommend to the principals conference sanction of frosh-soph cross country. All schools but Arlington have been operating frosh-soph slates for the harriers on their own, but there is no conference setup with points toward the league's president cup.

If the suggestion is approved, the preliminary runs will be regularly scheduled along with the varsity runs the same weekend as the football games.

Other agreement was to standardize football and basketball rosters among all league schools for the benefit of coaches and programs (and fans). Roster information is to include names of principal, athletic director, coaches, managers, cheerleaders, both varsity and frosh-soph, plus vital information about the boys actually competing, such as number, name, year, weight and position. In basketball height will be substituted for weight.

Grapplers To Oppose Maine Dec. 7 Opener

First call for wrestling was consumated at Arlington high school Tuesday with a smear of candidates reporting to coaches Dick Mudge and Maurice Kellogg. Varsity and frosh-soph football boys just concluding their seasons over the weekend are being given a week off before reporting to the grappling mentors.

Issue of equipment, lectures from the coaches, physicals and payment of towel and insurance fees were the order of the day Wednesday for all others, with boys starting conditioning Thursday. The lecture to all candidates, new and old, included a discussion of training rules, requirements and conditions.

* * *

"WE HAVE a tough schedule ahead of us," reports varsity coach Mudge. "We'll meet the best in the state, requiring our boys to be in top condition by the opener against Maine Dec. 7. We expect cooperation from every boy and strongly urge any coming along just for the ride to forget wrestling and turn their talents to other activities."

That schedule is rough. In addition to the strong schools of the West Suburban loop, there'll be Waukegan, New Trier, Oak Lawn, Tilden, Evanston, Leyden, Elgin, Palatine and Glenbrook. Competition is expected to be keen at 8 weights, with only 2 or 3 to be one-man affairs.

* * *

LETTERS will go out to parents soon explaining their part in the development of their boys. Three more climbing ropes have been acquired, in addition to a new scale. Running and climbing are the best conditioners for wrestling, and Mudge and Kellogg are determined their boys will be in shape in time for that opener.

Here is the schedule:

Saturday, Dec. 8, Glenbrook, there
Thursday, Dec. 13, Leyden, here
Friday, Dec. 21, York, there

Cardinals Inadequate In Final Grid Loss At R-B

Arlington high school's Cardinals were wondering this week just why Riverside-Brookfield had won only 1 WSC game prior to Saturday's 32-7 scalping. The Brooks spoiled the locals' hopes for a .500 season on the RB gridiron.

The Cards' only score came on a freak play. Bob Caggan, a junior varsity boy who had seen practically no action in varsity games this year, intercepted an RB lateral in the backfield and covered the 25 yards between him and the goal line without faltering. This score came in the fourth quarter after the winners had built up a comfortable 26-0 lead.

* * *

THE BROOKS scored the first two times they got their hands on the ball. An intercepted pass gave RB a first down on the Arlington 25. It took only 4 plays to register the first Bulldog TD. Ed Rosicky, who looked like an all-conference quarterback, did the honors from the 7 yard line.

Touchdowns: Rosicky, Palloucek, Doolen (2), Cagann, Steinhaus.
Conversions: Woeltje (2), Weber.

The next RB score came on a 71 yard march which was capped by Gary Doolen's 5 yard dive to paydirt. The Bulldogs used 10 plays and 5 first downs on the way.

* * *

THE CARDS made one of their few real threats near the end of the first quarter. Ashley Haase, a bright light in an otherwise gloomy afternoon, and Howie Berg teamed up to lead a 57 yard march which was ended by a fumble on the RB 8.

Riverside - Brookfield threatened on the Arlington 9 in the third quarter, but the Cards took over on downs. The half ended with some interesting statistics. Rosicky had completed 5 of 8 passes for 59 yards while his hard - charging backfield mates had racked up 117 yards on the ground. Arlington had only 1 pass completion in 7 attempts, good for 5 yards. The Cards had moved 72 yards on running plays.

* * *

THE BULLDOGS took the second half kickoff and went 72 yards on 6 plays. Doolen scored his second TD, going over from the 9. The fourth RB touchdown came at the end of a 79 yard drive just as the fourth quarter got underway. Captain Denny Paloucek scored this one, going over from the 5. This gave Riverside-Brookfield a 26-0 lead and set the stage for Arlington's brief bid for glory.

It was Bill Steinhaus' turn to score so Ed Rosicky hit him with a pass from the 6 yard line. The scoring play came at the end of a 61 yard march and ended the scoreboard activity for the year. The Cardinals could have spent a more pleasant afternoon at the near-by zoo. (Sp

Card Harriers Top Riverside In Final, 15-53

Arlington's cross country runners ended the season on a happy note with a 15-53 decision over Riverside-Brookfield last week. The victory gave Coach Russ Attis an 8-4 record for the year, including 3-4 in the league, 3rd in the conference tournament and fourth in district competition.

Once again it was Ken Courter leading the way for the locals, followed by Ron Marks, Les Vaughan, Alan Hutchinson and Bob Taggart. Scoring for R-B were Sering 6th, Kostka 8th, LeCher 12th, Fisera 13th, Krouch 14. Winning time by Courter Wednesday on the Riverside course was 9:39. Taggart, in fifth place, was just 7 seconds back.

* * *

THE STATISTICS for the season revealed Courter copping 4 firsts, 5 seconds, 2 thirds and a fourth in the 12 duals for an average of 2.0. Next was Hutchinson with a 4.7 average finish, followed by Taggart, Marks, Anderson, Geocaris and Koopman.

Basketball Opener Just 1 Week Away

Four lettermen, 38 out, and the opener just 1 week away.

That's the task facing Coach Howard Lester, basketball coach at Arlington high school where 38 boys are trying for positions on the Cardinal varsity squad.

Coach Frank Bohac is working with 45 sophomores while Coaches Ken Schaller and Bob Anderson have 65 freshmen practicing at Heights.

* * *

FOUR LETTERMEN expected to head Cardinal plans this year include Capt. Tom Jacobsen, Bill Palmer, Pat Brownell and Dan Vittum. In addition, 3 boys from last year's frosh-sophs who could be a big help to the Arlington cause include Bob Lockwood, Jack Weber and Bruce Bjorklund.

Five transfers have turned out among the 38 boys, with 2 or 3 of them appearing to have the ability to stay with the squad. First cut will be made the end of this week. Opener on the home court is scheduled for Friday night, Nov. 16, against Woodstock, followed by the Thanksgiving eve affair at Palatine.

Palatine To Host Arlington In Opener Nov. 21

Basketball practice opened at Palatine high Tuesday afternoon with John Fabri in charge of the sport. An intensive building program is being planned with Fabri supervising the coaching of the soph and the frosh squads as well as directing the varsity team. Dick Gavigan, who coached freshman football, will have direct charge of the sophomore team while Edmond Goodwin will again direct the freshmen.

Fabri has a big task bringing Palatine back to a position of prominence on the hardwood court but he has the experience and the sound basketball philosophy needed to get results. Palatine won only 2 games last season so there is no direction to go but up the scale. The frosh-sophs were also heavy losers last year but the freshmen made a rather creditable record. Palatine has good potential material but the boys are a couple of years behind most of their coming opponents in basketball training, and skill in offense and defense fundamentals.

Card Frosh-Sophs Battle To 7-7 Deadlock At Riverside

Arlington's freshman-sophomore eleven battled to a 7-7 deadlock at Riverside-Brookfield last Saturday afternoon. Both teams took to the air, playing for the long gain. This was shown by the fact that each team had a total of only 6 first downs for the contest.

Neither team could dent the scoring column in the first half, although the young Cards threatened on several occasions. After RB had relinquished the ball on downs at the Arlington 30, the locals marched to the Brooks' 14 before having a pass intercepted on the 3 yard line.

BONN'S interception late in the first half touched off another Arlington drive. Al Sander went 17 yards to the RB 44 and Jeff Heintz, on a beautiful reverse of field, carried to the 7 yard line. Arlington had time for only one more play, however, and could do no better than the 5 yard line at half-time.

Riverside-Brookfield fumbled the kickoff as the second half got underway, and Arlington's Neumann pounced on the ball at the RB 43. On the very next play Barbour hit Whitehall with a touchdown pass play. Weisenbach's place kick was good, giving Beckman's boys a 7-0 lead.

* * *

A BEAUTIFUL 79 yard trek by the Brooks' Jim Schreiber gave the homestanders a first down on the Arlington 3. The quarter ended but RB's touchdown bid didn't, Gil Junkunc tallying on a plunge from the 2 yard line. Schreiber scored the extra point on an end run.

From there on out, the game see-sawed back and forth as each team tried desperately to score. Arlington made a strong bid, going to the opponents' 23, but fumbled.

Halfback Bob O'Neill, who played a stellar game on pass defense for the locals, brought the crowd to its feet late in the final stanza. Taking an interception, his third of the day, on his own 25, O'Neill raced to the Riverside-Brookfield 10 before being hauled down. However, an illegal use of hands penalty brought the ball back to the RB 38. Three pass plays failed and the game ended all knotted at 7 apiece. (Sp

DOUG HILDEBRANDT of Palatine got his biggest assignment of the season as the University of Miami stayed undefeated by beating Florida State university 20-7. The Hurricanes picked up a lot of injuries in the Texas Christian university and one of the Miami regulars not playing was starting left end Jack Johnson. This moved Hildebrandt to the second team, which splits playing time evenly with the starting unit.

As has been the case most of the season, it was the second unit which did the scoring to break a scoreless tie, Hildebrandt turning in two key blocks on long gainers around his end.

With Miami losing both its senior left ends this spring, Hildebrandt appears to be the lad who will be a strong bidder for a first team spot next fall. Miami plays Clemson, West Virginia, Florida and Pittsburg in that order to end its season. The game with Pittsburgh will be televised nationally.

MAC SAYS

by G. A. McELROY

THE FOOTBALL SEASON has closed and champions have been declared in all the suburban conferences. Evanston took the Suburban with 5 wins and 2 ties though in some quarters they say Proviso tied with 6 wins and 1 loss, counting ties as half losses. We cannot see how an undefeated team can share a championship with a team that was beaten, however. In the West Suburban Hinsdale was upset by Glenbard in the final game and forced to share the title with Maine who they thoroughly drubbed and held to minus yardage a few weeks ago.

Paul Kessenick

Thornton grabbed the South Suburban title, something they have a habit of doing about twice in every three years. East Aurora whipped Elgin to cop the Big Eight. Barrington went through the season undefeated and set a flock of new records in the North Suburban. Barrington has six championships in the past eight years in the North Suburban and the Northwest Conferences. Oak Lawn copped the South West Suburban and Sycamore took the Little Seven by beating St. Charles.

* * *

IN THE NORTHWEST conference Glenbrook finished their third straight undefeated season with 23 straight league games without a defeat and a string of 26 in a row including non-league contests. Walter Sherman, an alumnus of the old Northbrook high school where he started football under the coaching of Bill Lutz, has installed a winning system at Glenbrook which may carry the string through another season in the new Tri-County league.

Sherman, who was named by this writer on the all-conference team as a guard in his high school days, has done an outstanding job at Glenbrook. We are under the impression the Spartans in the past 2 years would have been contenders in any league in the area except the Suburban league.

* * *

OUR NOMINATION as "Coach of the Year" in the Northwest conference is little Paul Kessenick of Antioch who piloted his team to second place after losing the opener to Glenbrook. Antioch, under Kessenick, has had 2 seconds and 2 thirds in the past 4 years.

This season his material was so scanty in numbers he had no reserves for several positions and most of his boys played full time on offense and defense.

He had the best backfield in the league but the line, with only two vets, could not hold a candle to Glenbrook. In spite of this, he got by and his team improved every game until they were able to actually swamp Palatine, Grayslake, and Wauconda under top heavy scores in the last three games. These teams all had .500 records or better.

There is no official championship in frosh-soph football in the Northwest conference. If there were, Grayslake would be the title winner.

The Rams had six wins and a tie with Glenbrook while Glenbrook had four victories and three tie games. The prospects for the future are excellent at Grayslake as five sophs were on the varsity and two are regulars while the soph team had quite a sprinkling of good freshmen.

* * *

PALATINE HAD ONE of the 4 best seasons the school has enjoyed since football was started, after a lapse of 7 years, in 1942. Dick Welty coached Palatine's only conference champs in 1952 with a 5-1 record the first year after Barrington moved to the North Suburban. Charley Feutz had a team with a 6-1 record for second place behind Glenbrook in 1954.

Earl Stutzman's team in 1942, when football was started at Palatine, had a 4-2 record for second place behind undefeated Antioch.

This year, like 1942, Palatine was not expected to win more than 2 games, but copped 4 victories. A very good team spirit and boys who loved to play football combined with a lot of individual coaching attention from Feutz, Ellis, and Fabri brought the Pirates a long way and they will be ready next fall to make their move as a title contender in the new Tri-County league.

* * *

ONE OF THE THINGS we are convinced should be practiced in football officiating is the organizing of teams of officials to work together in handling games. By this we mean that there would be more efficient officiating if a man worked all season as a head linesman, or a referee or umpire instead of having a different assignment each game. There are certain things to look for and situations to call which are peculiar to each of the officiating positions.

So many situations in football occur to an official only once or twice a season that it takes a much sharper practioner in this work than most fans realize.

In a way the football official has an easier job than the man who works basketball games because the average fan does not see what happened and is too far from the play in football. In basketball all fans seem to feel they understand the game and are sure they saw what happened and often make their disagreement with the official known.

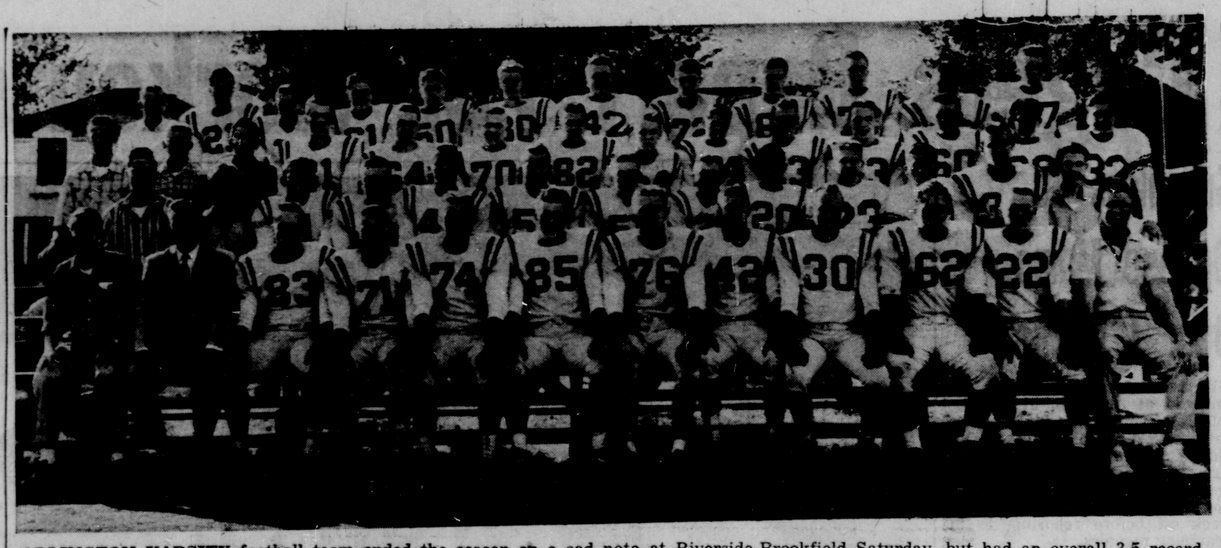
In football an official calls only a part of the game because he cannot hope to see it all. That is why we have three or four men on a game.

It stands to reason if he worked one job all season that he would become a much more consistent whistle tooter than as though he rotated about from game to game.

* * *

NEXT WEEK we shall unveil our Paddock Publications All-Northwest conference grid team. We have asked the coaches of the conference to pick all opponent teams from the list of outstanding players each coach has nominated from his squad. From this and from our own observation of each team in the conference the all-star group will be selected.

This year our observation has been that there are quite a number of good quarterbacks and tackles. Guards and ends of all-league caliber of other years seem to be in short supply. There were two outstanding fullbacks and a number of good halfbacks. Two centers were very good men at their positions. The conference was better balanced and each team had some fine performers.



ARLINGTON VARSITY football team ended the season on a sad note at Riverside-Brookfield Saturday, but had an overall 3-5 record, slightly better than expected. Front row, Mgr. Jeff Hanor, Coach "Bus" Ormsbee, Capt. Dan Vittum, Dean Skadberg, Ray Horcher, Denny Zapp, Jim Hoffman, Ashley Hasse, Howie Berg, Ed Meinken, Ron Shoemake, Coach Bob Scott. Second row, Mgr. Bison Opener Against Marmion Thanksgiving Week

Fenton high school cagers reported to Coach Chuck Cole Tuesday afternoon with the opener at Marmion just 2 weeks away. All squads reported, with Bill Jonkeer slated to lead the frosh-sophs, Art Dietz the freshman, and Denzil Whitlow the JV's.

Not much was known of prospects as of Monday, 24 hours before they reported, but a schedule calling for 20 games and the Fenton holiday tournament was released by athletic director Frank Novatny.

THE SCHEDULE calls for a trip to Marmion Saturday, Nov. 24, then a stop at Lake Park in Medinah Tuesday, Nov. 27, before the home opener against Palatine Nov. 30. Last year's Bison frosh-sophs were undefeated in Northwest conference play, which may help the varsity.

New H. S. At Medinah Has 20 Tilt Schedule

Prospects of initial basketball practice without benefit of baskets was the prospect facing Lake Park high school coaches the end of this week. The baskets for the brand new gym still had not arrived as of Tuesday.

Varsity Coach Jerry Carpenter watched the final finish coat applied to the gymnasium floor Sunday, and was chomping at the bit until it dried by the end of the week. Baskets and scoreboard are still missing. Bleachers are scheduled to be installed by Nov. 19, just in time for the opener Nov. 27 against Fenton of Bensenville.

Pirate Sophs Trip Ela, 20-7

Palatine's sophomore football team, coached by Claude Bailey, concluded a successful season last Friday night when they defeated Ela-Vernon 20-7 for their fourth Northwest Conference victory. Palatine suffered league defeats at the hands of Wauconda, Glenbrook, and Grayslake and a non-league loss at Barrington.

Dick Welty scored all three of Palatine's touchdowns in their final win of the season. After Ela took a 7-0 lead when Joe Welch picked up a fumble and ran 50 yards for a touchdown, Palatine had everything their own way. A 20 yard pass from Bill Coates to Dick Welty set the stage for a 15 yard touchdown sprint by Welty. Mike Fremon ran for the extra point.

* * *

LATER a 45 yard pass play from Coates to Tom Weitzel put the ball on the Ela 15 and Welty duplicated his earlier run for a touchdown around end. Following the second touchdown the conversion was scored by Joe Fischer on an end run. Late in the game Bill Coates intercepted an Ela pass and ran 50 yards to the 5 yard line. At this point Coates tossed a pass to Welty in the end zone on fourth down.

The statistical summary of the game showed Palatine holding a big edge on their opponents with first downs 11 to 2 and net yardage 225 yards to 16. Bill Coates tossed six completed forward passes in 15 tries for 89 yards and Tom Weitzel did some nice pass catching. (Sp

Both Palatine Elevens End Year With Victories

Palatine's football teams closed the season Friday night as both varsity and frosh-soph pounded out 20-6 victories and both finished in the Northwest Conference. Both teams did better than expected. The varsity, figured for a second division berth grabbed off undisputed third place for one of the better seasons the school has enjoyed on the gridiron.

The Palatine varsity was slow in getting into the scoring. They traveled from their own 38 to the Ela-Vernon 7 in an opening drive but a penalty and a stiffening Ela defense stopped them eventually on the Ela-Vernon 12. Later Palatine recovered an Ela fumble on the 30 yard line but again lost the ball on the 12. A third try came when Roger Knitter intercepted an Ela pass on the 15 yard line early in the second period. Dick Wisner tried to pass but was tackled back on the 20. However, his next try was successful on a 20 yard shot to Jordan Danforth in the end zone. Curt Lewin place kicked the extra point and Palatine led 7-0 at the half. Ela threatened just before the half on a drive to the Palatine 20 featured by a pass from Nehmer to Wesner but Palatine recovered another of many Ela fumbles to stop the threat.

* * *

AT THE START of the second half Knitter recovered an Ela fumble and the Pirates moved 29 yards to the 15 where they fumbled the ball away. However, Ela was most helpful to the Palatine case by immediately fumbling the ball back to the Pirates. Three plays later Wisner passed to Bob Nordin 18 yards for a touchdown. Lewins place kick hit one of the goal posts and was no good.

Six plays later Palatine punted to Ela and Irv Pohlman ran the ball back 67 yeards for a touchdown to keep the Bears in the ball game. A little later Palatine marched to the Ela 25 but lost the ball. Soon after they had the pigskin on the 37 and proceeded to sew up the game. A 23 yard run by Dave Shaw and a five yard pass from Wisner to Dave Sundling put the ball on the one foot line from which point Karl Schwenk plunged over on a quarterback sneak. Lewin converted.

Touchdowns: Palatine — Danforth on 20-yard pass from Wisner, Nordin on 18-yard pass from Wisner, Schwenk on 1-yard quarterback sneak. Ela-Vernon: Pohlman on 67-yard punt return.

Conversions: Palatine — Lewin (2) place kicks.

Illini, Wildcats In Good Shape For Mich, Badgers

Illinois' football team appears in good physical condition for this weekend's Big Ten encounter with Michigan at Ann Arbor. No serious injuries were reported following the bruising 7-7 tie at Purdue last Saturday and the squad is near full strength today as preparations continue for the battle with the Wolverines.

Guard Percy Oliver came out of Boilermaker game with a slightly sprained knee and ankle, and fullback Ray Nitschke and quarterback Bill Offenbecher had bruised knees. The injuries hamper their work in drills, but should not be a factor in the Saturday game.

Coach Ray Eliot has been impressed by defensive work of his team in last two games — against Michigan State and Purdue. He is concerned, however, about the fact that Illinois' attack again bogged down near Purdue's goal line.

* * *

NORTHWESTERN'S Wildcats, spurred by a fine though losing performance against Ohio State by a 6-2 score last week, will be gunning for their first Big Ten win of the season when they face Wisconsin at Madison Saturday, Nov. 10.

The Wildcats emerged from the gruelling Ohio State game in good physical condition and may be further fortified this week by the return of quarterback Dale Pienta who sat out all but the last play of the Ohio State game. A severe charley horse kept him from full time duty but he did enter the game to throw a long pass in the final seconds of play.

However, Jack Ellis who has been sharing the signal calling job with Pienta all season, came up with such a splendid performance against the Buckeyes that he is almost certain to start against the Badgers.

Ellis completed nine out of 15 passes for 79 yards against the Buckeyes for his top passing performance of the year. He has a season's mark of 15 completions in 27 attempts. He has one touchdown strike to his credit.

* * *

WHETHER Leonard Dawson, the Big Ten's leader in total offense and passing, will be able to take the field at the scene of one of his greatest single game performances provides the big question as Purdue prepares for the Michigan State at East Lansing on Saturday.

Dawson, who engineered a 27-13 win over Michigan State in his previous visit to the Spartan stronghold as a sophomore in 1954, had his precision passing throwing arm in a sling early this week as a result of a painfully jammed shoulder suffered early in the 7-7 stalemate with Illinois last Saturday.

* * *

THE BOILERMAKER pilot is listed as an extremely doubtful starter against the Spartans and Coach Jack Mollenkopf has been grooming senior Ted Krzeczowski and sophomore Bob Spoo to handle the quarterbacking duties, with junior reserve Doug Streff as a possible relief.

Dawson's importance to the Boilermaker attack is strikingly revealed by the figures on his performance against the Spartans in 1954 when he completed nine of 14 passes for 273 yards and three touchdowns to establish a new Purdue record for yards gained through the air in a single game. In that same game he added 12 yards on 6 running plays for a total of 285 yards in 20 plays to set the current Big Ten record for average yards per play of 14.25.

NORTHWEST CONFERENCE administrators of the 8 league schools are meeting this year for the last school year, with new affiliations effective next fall. Front row, Dr. Martin Zuckerman of Fenton, league president G. A. McElroy of Palatine, Dr. Norman Watson of Glenbrook, H. L. Wesner of Ela-Vernon. Back row, Richard Warfield of Wauconda, Albert Dittman of Antioch, Wade Eberly of Grant, Walter Nesheim, assistant at Grayslake.

Archie Moore and Floyd Patterson will square off in Chicago Stadium on November 30 for the heavyweight championship of the world. Moore, already the light heavy king, will be making his second try for the heavy crown. Patterson, former Olympic champion, and winner of 29 of his 30 professional fights, could become the youngest heavy champ in history at 21 while Moore could be the oldest at 43.

Antioch Wins Over Wauconda To Cinch 2nd

Antioch clinched second place undisputed in the final Northwest standings by running over Wauconda 32-21 on the home field last Saturday night. The victory gave Antioch a 5-2 record for the conference and 6-2 for the season. Antioch ran up a 32-6 lead on Wauconda in the first three quarters. Wauconda scored two touchdowns and a safety in the last quarter against a team made up to a great extent of Sequoit reserves.

Dick Srch, who finished second in league scoring with 76 points, scored three touchdowns and two conversions for 20 points. Srch had runs of 2, 5, and 45 yards for his three tallies. A fourth touchdown was scored on a 29 yard pass from Earl Deppe to Jerry Huml and the fifth came on a 10 yard run by Lon Christensen.

* * *

BILL WEINBERG, Wauconda quarterback, went over in the first quarter from the one yard line. In the last quarter Vern Lincoln tackled Deppe behind his goal line for a safety and the Bulldogs scored touchdowns on a 6 yard run by Ron Smith and a 17 yard pass from Weinberg to Ron Clark. Ken Wesniewski converted once for Wauconda.

In the last four years Antioch has had two seconds and two thirds in the final Northwest Conference football tabulations. (Sp

Pure Pleasure

The vacation and tourist trade is one of the three principal industries in 17 of the 48 states.

Glenbrook Wins 3rd Straight NW Undefeated Title

Glenbrook finished its third straight undefeated season in the Northwest conference last Friday night by soundly trouncing Grant of Fox Lake 39-0. Grant did not supply a frosh-soph team for the preliminary so Glenbrook defeated Notre Dame High frosh sophs in a thriller 31-27.

The Glenbrook varsity has run up a string of 26 games in a row without a defeat though suffering a scoreless tie with Grayslake in the present season to give them a six won and one tied for 1956 in the Northwest Conference.

* * *

THE SPARTANS ran up a 26-0 lead on Grant in the first half. The scoring started when Sandy DeBeers intercepted a pass and ran 25 yards in the first quarter with Howard Rosley converting for a 7-0 lead. Three touchdowns were pushed over in the second period as Dick Rinella scored on a 6 yard plunge, Don Nicoll intercepted a pass and ran 17 yards for a touchdown, and Frank Coffey to a 26 yard pass from Rinella to reach pay dirt. Rosley converted after Rinella's touchdown.

In the third and fourth quarters Rosley scored to bring his league leading total to 83 points. The hard hitting Glenbrook fullback plunged four yards for one score and made another on a 30 yard pass play from Rinella. This gave Rosley two touchdowns and three conversions for 15 points. (Sp

Establish State Wildlife Refuge North Of Palatine

A 101-acre farm north of Palatine on route 53 has been designated as a state wildlife refuge. The farm, on the west side of route 53 a quarter-mile north of the Lake-Cook county line, is owned by Mr. and Mrs. Joseph Holleck.

"No Hunting" signs have been posted on the farm, which is about half farmland and half wood and brush land. Mrs. Holleck said that a pond is being dug on the farm.

"We gain a great deal of pleasure from our wildlife and hope to preserve it," she noted, adding that pheasant, raccoon, woodchuck and 'possum abound.

Holleck is employed in Chicago but has farmed the place on a part-time basis for 3 years. (Sp

Chicago Cardinals In Crucial Game At New York Sunday

The "head-on" clash to determine first place in the Eastern division of the National Football League takes place Sunday afternoon when the Chicago Cardinals battle the New York Giants in Yankee Stadium. The game will be broadcast over WCFL at 1:05 p.m. Chicago time.

Both teams have records of 5 victories and 1 defeat during the first half of the season. The Cards lone loss was a 17-14 defeat by Washington at Comiskey Park while the Giants' only defeat was in Comiskey Park when the Cards won a 35 to 27 verdict in the second game of the season.

Each team will be practically at full strength for Sunday's contest. The Cards won a 28-17 decision over the Philadelphia Eagles last Sunday without using fullback Johnny Olszewski and defensive tackle Chuck Ulrich. Both will be able to play against the Giants.

Parkie Whips Freitag; Irv Hahnfeldt Next

Al Parkhurst of Palatine took advantage of a good spare ball and an "off night" for Herb Freitag of Rolling Meadows to go on and win his second consecutive series on "Match Play" at Beverly Lanes in Arlington Heights. Parkie rolled 546 with Freitag hitting 486.

Parkhurst rolled games of 168-203-176, Freitag 175-152-159. Inability to break up rails proved costly to Freitag.

THIS COMING Sunday night at 10:30 Irv Hahnfeldt of Palatine will provide the competition for Parkhurst. Irv, a veteran of the Hi-Way Classic league in Palatine, is well known in the area for his bowling ability.

Under his leadership his team, Haseman Truckers, won the Paddock Publications tournament for the third time, gaining permanent posession of the Paddock trophy. Irv has always held one of the highest individual averages in the area. He rolled 725 series just 2 weeks ago at Hi-Way Recreation.

THE WINNER of this interesting battle Sunday night, Nov. 11, will meet Al Walter of Arlington Heights the following week.

Prize for the winner of this week's contest will be awarded by Flaherty Jewelers in Arlington Heights. (BD

November 17 Is Deadline For NROTC Applications

High school seniors and graduates have only until November 17 to apply for the Navy's Reserve Officer Training Corps, VAdm. James A Holloway, Jr., Chief of Naval Personnel, said today.

Applicants will take the nationwide competitive examination on December 8 as the first step toward an appointment as midshipman.

* * *

DESIGNED to supplement the officer output of the Naval Academy, the NROTC program makes it possible for a young man to earn a commission while studying at the civilian college of his choice which has an NROTC unit.

All tuition, fees and books are furnished by the Navy, and the student receives an annual retainer of $600 for four years.

During the summers the student goes on fascinating training cruises to many parts of the world. After completing the usual four year college course, he is commissioned in the Regular Navy or Marine Corps and goes on active duty with the Navy's far-flung fleets.

HIGH SCHOOL seniors and graduates between the ages of 17 and 21 may apply for the NROTC aptitude test. Those who make a qualifying score will be given a rigid physical exam early in 1957. From the pool of qualified young men remaining in competition, approximately 2,000 will be selected to begin their naval careers next September.

The NROTC college training program is also open to enlisted men on active duty with the Navy and Marines. Separate quotas are established for applicants from within these services.

Application forms are available at the Navy Recruiting stations in Arlington Heights Village hall, open from 8 a.m. to 4 p.m. daily.

Vets, Widows Must Keep VA Informed Of Incomes

The Veterans Administration this week advised Illinois veterans, widows and fiduciaries for children receiving pension checks, that they may save themselves money by notifying VA promptly of any increase in annual income which would put them above the statutory limitations.

Robert D. Beer, VA's regional manager for Illinois, explained that pensions are payable to veterans for permanent and total disabilities of a non-service-connected nature, and to the widows and children of deceased veterans for non service-connected death, providing the applicants are otherwise eligible.

* * *

TO REMAIN eligible for pension under the law, according to Mr. Beer, pensioners of World War I, World War II, and of the Korean conflict may not have an annual income from other sources exceeding $1,400, without dependents, or $2,700, with wife or minor children.

VA checks the annual income of those receiving pension through the medium of annual questionnaires which are distributed about January 1 every year.

If the pension-holder later receives an increase in income above the statutory limit, he which raises his annual income should notify the VA immediately. If he fails to do this promptly, Beer said, an overpayment, subject to recovery, may be created.

CHRISTIAN SCIENCE CHURCHES

The spiritual basis for true health and peace will be set forth at Christian Science services this Sunday, November 11.

Keynoting the Lesson-Sermon entitled "Mortals and Immortals" is the Golden Text from Romans (8:6): "To be carnally minded is death; but to be spiritually minded is life and peace."

Selections to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include the following (265:5): "Mortals must gravitate Godward, their affections and aims grow spiritual, — they must near the broader interpretations of being, and gain some proper sense of the infinite, — in order that sin and mortality may be put off."

Among the scriptural selections the following will be read (Matthew 11:28): "Come unto me, all ye that labour and are heavy laden, and I will give you rest."

Former Lawyer To Lecture In Mt. Prospect

A world traveler and lecturer of wide experience has been secured by First Church of Christ, Scientist, Des Plaines, in cooperation with First Church of Christ, Scientist, Arlington Heights, to deliver a free public lecture in Mt. Prospect Central school on Route 83 at Central rd. in Mt. Prospect Thursday, Nov 15, at 8 p.m.

He is Dr. Archibald Carey, C.S.B. of Detroit, Mich., a member of The Christian Science Board of Lectureship. He will speak on the subject, "Christian Science: How Prayer Heals.'

Dr. Carey received the degrees of A.B. and LL.B. from the University of Michigan and LL.D. from the Principia college. He entered the legal profession in Detroit, eventually becoming the senior member of a firm engaged largely in the practice of corporation law.

While traveling in different countries, he realized the world-wide need for what Christian Science offers, and with the conviction that he could be of greater service in the practice of Christian Science he retired from his law practice. In 1931 he became an authorized teacher of Christian Science.

Since 1946 he has lectured on Christian Science in many countries from Alaska to Argentina, and from Europe to South Africa and Australia. The public is invited to attend. (Ch

National Has Record Sales, Lower Net

Record sales, highest in National Tea Co.'s history, and improvement in gross profit for the year to date through October 6, 1956, were not sufficient to offset increased taxes and financial expense resulting in a slight decrease in net earnings at the end of the third quarter, according to H. V. McNamara, president and chief executive officer, who today announced results of operations which will be included in his third quarterly report to shareholders.

Net profit for the National Tea Co. for the 40 weeks ending October 6, 1956, totalled $4,805,811. after provision for federal income taxes of $5,540,000. This compares with a net profit of $5,239,938 after federal taxes of 5,350,000 for the same period of 1955. This is a decrease in net earnings of $434,127 for 1956, as compared with the same period of 1955. Increased cost of interest for financing purposes totalled $299,968, and set-aside for federal income taxes showed an increase of $190,000. The elimination of a tax carry-forward in 1955, which was not available in 1956, resulted in increased rate of federal taxes from 51 per cent of net earnings in 1955 to 54 per cent of net earnings of 1956.

* * *

EARNINGS for the 40 weeks of 1956 were equivalent of $2.26 per share on 2,120,714 common shares outstanding as compared with $2.47 per share on 2,119,714 common shares outstanding at the same time a year ago.

National Tea Co. consolidated sales for 40 weeks of operations this year totalled $468,319,855 which compares with total sales of $430,-411,229 for the corresponding period of 1955, bringing the total increase for the year to date to $37,908,626, which is a gain of 8.81 per cent ahead of the same reporting period of the previous record year of 1955.

Stores in operation at the close of the third quarter totalled 757 as compared with 730 stores in operation at the end of the third quarter of 1955. (BB

Fall Business Prospects Are Good, Reports Bank

Fall business prospects remain good, the Federal Reserve Bank of Chicago reports, though some "bearish" signs are present on the nation's business horizon.

The bank says that production and new orders are still rising, while the uptrend in personal income bodes well for consumer buying.

Steel firms expect to operate at or near capacity, buoyed up by a prospective gain in auto production and continuel over-all industrial expansion.

The auto industry is scheduled to produce over 1.7 million cars in the fourth quarter—only 10 per period, auto production ran 29 per cent under 1955. Industry spokesmen anticipate that 1957 passenger car output will climb 10 to 15 per cent over the current year.

In addition, the bank observes, most merchants are looking forward to higher levels of consumer buying in the next few months. Personal income passed the $328 billion (annual) rate in lat esummer, up almost 20 billion from 1955. Average hourly earnings in manufacturing cracked the $2 mark in September for the first time, and weekly earnings were at a new high of $81.

BUT PESSIMISTS are able to muster some support for their less nation's output of goods and services rose an estimated $5 billion from the second-quarter rate, the rise was traced almost entirely to higher prices. In September, seasonally adjusted employment was down slightly from August. Average weekly manufacturing hours figures.

pects, the bank points out, weakened further in early fall. Housing starts declined in September to an annual rate of about one million, 20 per cent under 1955. Spending on housing remained 10 per cent below the previous-year pace. Outlays have fallen less than the number of houses built because residential construction costs have increased and there has been a step-up in the demand for larger and more fully equipped homes.

* * *

ON THE OTHER hand, one of the most optimistic forces on the business scene is the rosy capital mates foresee an annual rate of $38 billion in the fourth quarter, continuing the steady rise through the year.

Machinery order backlogs are still going up, with many firms complaining of slow delivery.

Behind the 1956 capital outlay boom has been the driving need to expand business facilities.

And, according to the bank, this tinue to provide the economy with support in 1957. (BB

Pain, With Faith, Brings A Closer Union With God

by LELAND ELLIS RUXELL

No one likes paint; yet perhaps no other condition of the body can lead us to a deeper consideration for our health than to have a bout with physical suffering.

Most pain is an evidence of wrong living. Crowded doctors' offices are a testimonial to the conditions under which we are living today. Devitilized foods, too much pressure at work, too much worry, too many wars have left their aftermath of suffering. Living up with the Joneses tears down the body and nervous system.

* * *

MUCH SICKNESS and pain could be overcome by sticking to a diet of whole grain foods, cutting out refined sweets, eating at regular hours, and watching our consumption of cigarettes and alcohol. A moderate man or woman who watches his foods and his rest, seeing that he gets what he needs of both, is seldom ill.

Refusing to worry but being content with good food, rest and a happy home will cut down the strain on the nervous system, helping the body to do a better job of digestion, helping us to get restful nights, to live longer without pain and suffering.

Much as we dislike pain, it has good points, too. Like the fellow who was hitting his thumb with the hammer, it feels so good when it stops. Intervals of pain are generally followed by intervals of freedom from pain, and we are happy and grateful for them.

* * *

PAIN ALSO helps build up endurance, if accepted in the right light. A pain that is almost constant comes to be a sort of companion, as I so well know. We become so used to it that, for long periods of time, we are unaware of it, and if suddenly it stops, we have a distinct feeling of loss.

Pain strengthens the will, teaches patience when endured in faith, makes us sympathetic to the ills of others. In a person of deep Christian faith, it almost always brings about a closer union with God. (B10

NEEDLE in the GROOVE

by PAUL LITTLE

For some of the finest blues'n "pops" singing, we enthusiastically refer you to the new Atlantic 12-inch waxing (1240) by vivacious, gifted Chris Connor, "He Loves Me, He Loves Me Not." Chris has a candid delivery, a sincerity and ability with diction and tune and pace that appeal at once, as she proves superbly in this recital with Ralph Burns and his orchestra.

Ralph, by the by, was responsible for all the arrangements, and a hearty Bravo goes to him for it. Chris is at her inimitable best in such songs as "But Not For Me," that wistful song of unrequited love by George and Ira Gershwin, the poignant "Thursday's Child," and "I Guess I'll Hang My Tears Out to Dry," as well as "You Stepped Out of a Dream," "Round About' and the tender "Angel Eyes." This is singing in the grand style, and Atlantic's hi-fi sound delineates every tuneful note!

* * *

FROM COLUMBIA, a two-disc album that is one of the finest examples of orchestral performance and sonic reproduction to be found on lp: Isaac Albeniz's vivid, colorful and rhythmic "Iberia," a musical picture of Spain. Originally written for piano in twelve sections, this masterpiece was known in orchestrated form through the work of Fernandez Arbos, the gifted Spanish composer-conductor; Carlos Surinach, modern Spanish composer, orchestrated the last seven sections, so we may hear this exciting music in its entirety for the first time. It is performed with dazzling beauty and brilliance by the great Philadelphia Orchestra under Eugene Ormandy. The hi-fi reproduction is breathtaking — a must!

Perhaps even more exciting because we are more familiar with it, is the "Gayne Ballet Suite" by Aram Khachaturian; the "Sabre Dance" has already become a modern classic, even so far as to becoming a noted TV commercial! But there is much more to the suite than this thrilling excerpt, and again Eugene Ormandy with the Philadelphia Orchestra leads us through a glorious adventure in stirring, rhythmic, compelling music which again merits laurels for interpretation as well as hi-fi sound. On the reverse side is a sparkling version of Kabalevsky's "The Comedians," Disc number is CL-917. Hear it at your community disc shop! (G

Want to glamorize your plain muffins? Mix three tablespoons sugar with one teaspoon cinnamon—and sprinkle as a topping for the muffins before baking. Makes enough for a two-cup flour recipe.

• • • • •

Good things are worth waiting for—and the makers of Ceresota flour not only select the finest, slow-maturing wheats—but they also make sure the flour is white without bleaching.

What does this mean in your kitchen? Just this: It means that Ceresota flour gives fuller flavor, better texture, and finer appearance in all of your home baking—every time. And remember, Ceresota is the only UNBLEACHED, NATURALLY WHITE flour you can buy. Yet it costs no more.

Don't forget to cut off the tops of carrots as soon as you get them home. This will keep the greens from draining the root of its moisture.

Hearty fall appetites and biscuits sure go together—and here's a recipe for "Orange Tea Biscuits" that'll enliven any supper:

Orange Tea Biscuits

Ingredients
2 cups Ceresota unbleached flour
3 teaspoons baking powder
½ teaspoon salt
¼ cup shortening
⅔ cup milk
1 tablespoon orange juice
1 orange rind (grated)

How To Use Surface Water In Coping With Drainage

When it rains, many Illinois farmers have drainage problems — from the water on their own land and also from the water that drains off higher lands in natural depressions. It is estimated that we have 5½ million acres in Illinois with a network of tile drainage.

* * *

NOW THERE IS another concern among farmers: What can they do to supplement their failing water supply? A large number of wells are dry, and others permit only part-time pumping.

The engineers say that a partial solution is more farm ponds. This brings up legal questions on the rights of a farmer to use run-off or surface waters on his land.

For example, suppose a farmer builds a farm pond, using run-off water that before had drained into a pond on a lower farm. Does the lower owner have a right to have this water continue to drain into his pond?

* * *

THE ANSWER is "no." A landowner may hold and use as much of this surface water on his land as he wishes — even to the point of not allowing any run-off to his neighbor. He may use any method or device to collect and confine such waters on his own land and, once confined, may treat them as other personal property. This probably includes the right to sell water from ponds or lakes that are fed from surface waters.

There are only 3 limitations on the right to use surface waters:

(1) Dams cannot be constructed in such a way as to back up water onto another's land;

(2) Overflow from a pond or small lake must not drain onto the lower farm at a place other than the natural drainage course; and

(3) Surface waters must not be withheld maliciously to injure neighbors. There should at least be some intended benefit to the pond owner. (Fm

Keep Guns Away From Children

Even if you believe that all the guns in your house are unloaded, it's a good idea to keep them away from children, says O. L. Hogsett, extension safety specialist at the University of Illinois.

A gun cabinet with a locked door is the safest place for guns. If you don't have a cabinet, store the guns in one special place.

* * *

AMMUNITION, in or out of a gun, is always dangerous when played with. Keep ammunition out of the children's reach.

If you must have a gun handy for use on rodents or for protection, keep it out of sight and reach of youngsters. (Fm

Caution Necessary With Cornpickers

The best time to be careful with cornpickers is before you are injured. One hundred fifty-five Illinois farmers last year found that "it can happen to me." These men were seriously injured and some were even killed by their own cornpickers.

But your picker can be just as safe as you want to make it, says O. L. Hogsett, extension safety specialist at the University of Illinois college of agriculture. A safe picker is one that is mechanically sound, well adjusted and operated right.

* * *

HERE ARE 4 safety tips. Follow them religiously and you should finish picking your corn without injury.

NEVER try to unclog, adjust, oil or grease your picker while it is running. Always shut off the power before you do any work on the machine.

NEVER be in a hurry. One of the biggest dangers with pickers comes when the operator gets in a hurry. Which is better — to play it slow and safe or to wind up in the hospital minus a hand or foot because you became careless while trying to hurry?

ANOTHER big danger comes in running your cornpicker when you're tired. Many a hand or foot has been lost when a tired, irritated operator carelessly tried to unclog the rolls along toward dusk. Better quit early than get hurt because you are tired and careless. If possible, change operators once in a while and rest.

* * *

IT'S WISE to carry a fire extinguisher on the tractor. During cornpicking there's always some danger that the shucks may catch fire from a hot manifold. In case of fire, a good extinguisher would help to save your tractor or picker.

Be wise — economize by preventing cornpicking accidents through safe operation. It's good business. (Fm

National 4-H Achievement Day, November 10

ALL THROUGH the autumn season, this scene (reproduced from the 1957 4-H Calendar painting) is repeated countless times across the country. And whether the entry is a carefully groomed hog, a home-sewn blouse, or a jar of strawberry jam, 4-H'ers gain experience and confidence at county and state fairs. On November 10—National 4-H Achievement day—thousands of 4-H boys and girls receive deserved recognition in their communities for outstanding progress in 4-H Club work.

Give Birds A Good Home: Plea From Farmer's Friend

Many farmers and their friends are enthusiastic pheasant hunters.

Sometimes the anticipated pleasure does not materialize completely. Frequently they are unable to find any birds. In addition to the sport, game birds help control detrimental insects.

* * *

UPLAND GAME population is primarily determined by the environment provided for it.

Managing land for game requires protective cover, winter protection, nesting areas, food and water.

Birds must be able to escape from predators and have some protection in severe weather. Winter food is a necessity as well as nesting sites, which are not disturbed.

Many local farmers have increased upland game on their farms by applying practices which are a part of their Soil Conservation District Management Plan District directors recommend that certain lands are most suitable for wildlife habitat.

* * *

MARGINAL ACRES are improved for wildlife by planting conifers, Multiflora rose fences, and food bearing plants. Land owners who are interested in restoring upland game are invited to consult their district conservationist.

Maurice Umbdenstock is conservationist for the North Cook Soil Conservation district. Office is located in the Farm Bureau building, Arlington Heights, Phone CLearbrook 3-7656.

Cornstalk Poisoning Is Dangerous To Livestock

A field of cornstalks looks innocent enough. But it can sometimes be a death trap to livestock.

Dr. D. R. Lingard of the College of Veterinary Medicine at the University of Illinois says that every year nitrate poisoning kills many farm animals when they are pastured in cornfields during the fall and early winter.

* * *

DR. LINGARD says the likelihood of losses from cornstalk poisoning is far greater in dry years than in wet years.

However, he points out that it's also possible for animals to poison themselves on cornstalks in fields that received large amounts of high nitrate fertilizer. Poisoning occurs when the animals eat large amounts of uncut cornstalks.

How can the farmer prevent or cut down the danger of this poisoning?

Dr. Lingard says thre's no way to be 100 per cent safe. He advises controlled grazing of stalk fields, giving the animals plenty of good-quality hay in drylot each morning before turning them onto the field and then leaving them in the field only a few hours at a time.

* * *

AFTER repeated small doses of nitrates, animals develop a tolerance that enables them to eat progressively larger amounts of cornstalks.

Dr. Lingard says that once an animal shows symptoms of poisoning, it's often too late to save it. The poisoning is so acute that treatment is usually not successful. (Fm

Test Steers May Be Fed Radioactive Stilbestrol

Animal scientists at the Illinois Agricultural Experiment station in Urbana have used radioactive stilbestrol in tests to find out whether the hormone-like substance is absorbed in aminal tissure and, if so, where and how much.

A. L. Neumann, head of the beef division at the University of Illinois college of agriculture, says that a complete report of this experiment will be given at the 28th annual Illinois Cattle Feeders day in Urbana on Friday, Nov. 2.

* * *

OTHER research reports to be given at Cattle Feeders day will include carcass evaluation of hormone-treated heifers, effects of terramycin on hormone-implanted heifers full-fed on pasture and in drylot, effects of aureomycin on hormone-implanted steers limited-fed or full-fed on pasture, and a study of time and methods of using hormones in beef cattle.

Guests will also hear an outlook report on the beef cattle situation and a talk on consumer education in the beef market.

* * *

CATTLEMEN attending the program are invited to visit the beef farm on the south campus for tours of the barns starting at 9 a.m. The "International" steers will be on display there, along with several lots of cattle on various silage experimen ,s . t::c silage experiments.

The formal program is scheduled to start in the Stock Pavilion at 11 a.m. Lunch will be served there by members of the Hoof and Horn club at the college. (Fm

I have word that the hay supply is short in southeastern Kansas.

NURSING AS A CAREER

The Cook County Health Improvement association is interested in securing applications for a nursing scholarship.

The scholarship will do the following: It will pay full tuition fee to the hospital of the applicants choice and will provide the applicant an allowance for incidentals while she is in school. There will be two scholarships available. A committee will decide who the successful candidates will be.

Any girl who is interested in being a nurse, and is not able to finance herself should contact me for further information.

THE NEWLY revised Illinois Farm record book is now available for distribution at my office.

The new record book has space for accurate social security and expenses, including those needed for a accurate social security and income tax returns.

The new book includes a five-year depreciation schedule as recently suggested by the Internal Revenue department.

The record book also provides a simple prodecure for making a limited analysis of the farm business by comparisons with current standards furnished by the college.

Don't fail to ake a good look at this fine record book before the 1957 year begins.

* * *

A LANDOWNER may hold and use as much surface water on his land as he wishes, even to the point of not allowing any run-off to his neighbors says a University of Illinois specialist in agricultural law.

Jesse Finch, Irving Park blvd., near Elgin, now has the record for pumpkin size. He grew one that weighed 165 pounds. It would take a pretty good man to lift that one and a lot of people to eat all the pumpkin pie that it would make.

If you have a record better than this, I would appreciate knowing about it.

Pasturing Of Soil Bank Acreage Prohibited: ASC

Soil Bank acreages placed in the 1956 Soil Bank program are not to be harvested or grazed during the remainder of this calendar year. This warning was issued today by Mr. Carl M. Bormet of the Cook county ASC office.

With grain harvest practically completed and with crops reaching the dormant stage, farmers may have a tendency to grow careless and permit livestock to run on designated acreages. Unless such areas are cleaned, tilled or the vegetation has been thoroughly destroyed, such action will constitute a violation. This may requjre refund of payments already made plus an additional penalty.

* * *

UNDER EXISTING procedures we will continue to spot check farms from this standpoint and will investigate all reported violations, continued Mr. Bormet.

Any questions relative to the use or handling of designated acreages should be referred to our offices at Arlington Heights or Tinley Park. (Fm

Farmer In Need Has Friend Indeed In FHA Loan Plan

Additional details of Farmers Home Administration loans for refinancing of debts were explained this week by Robert C. Becker, the agency's local supervisor.

These loans help farmers who are otherwise in a sound position but who are unable to meet their present credit obligations and need credit on more favorable terms and conditions than are currently available from other lenders.

Both real estate and operating loans are available for refinancing purposes to owner-operators of farms no larger than family-size.

Operating loans for refinancing purposes may also be made to part-owners and tenant operators. The applicants must have adequate security and be carrying on sound farming operations.

* * *

THE PURPOSES for which loans may be made include refinancing secured real estate debts and the payment of debts secured by liens on livestock, farm equipment, and marvested feed. Under certain conditions loans also may be made for the payment of unsecured debts.

Loans will not be used to refinance any debt until it has been determined that the present creditor or other credit sources are not able to provide the applicant with adequate credit on terms that he could reasonably be expected to meet.

* * *

The applicant must be of legal age, be a citizen of the United States and have had farm experience sufficient to indicate reasonable prospects of conducting successful farming operations.

Like other FHA loans, the eligibility of the applicant is determined by the local county committee. Additional information may be obtained at the FHA Office at 110½ E. Jackson st., Woodstock.

'Pardon My Odour, It's Just The Onions In My Underwear'

by MARY

This is a warning to all home owners.

If you are planning on selling your house, pause. Think it over. Then, if you decide to go ahead with it, rest up first.

* * *

THERE IS MORE to it than a sign in the front lawn and an ad in the paper. Much, much more. There are people to contend with. Don't get me wrong, I like people. Some of my best friends are people. It's the changing moods of the real estate world that get me.

Can this gay, ..smiling genial gentleman who is extolling the prospective buyers be the same gloomy guys that ..looked ..at ..it earlier and said it might never sell?

When he first talked to me, he literally tsk tsked which is something very few people do nowadays. He particularly tsk tsked the one car garage. It seems that it is mighty old fashioned to have one car and a one car garage to put it in. I was put on the defensive to the point of mentally hugging our poor little one car garage to my chest and clucking over it soothingly.

* * *

THE REDWOOD siding upset him too. At first, I thought he was shaken by the utter beauty of that natural gleaming wood. He was shaken all right but what shook him was the fact that it wasn't brick. Real estatewise, brick is just about the nicest thing that can happen to a house.

I thought seriously of running out and getting a load of brick and a bucket of mortar just to make him happy again. He assured me this was not at all necessary as somewhere in this world there might be some misguided soul who liked redwood. Besides me, that is.

But, the tiring aspect is the showing of the house. With 10 minutes to go until a prospective customer shows up, I find myself stuffing the dirty dishse into dresser drawers. With the kind of mind I have, I forget where I have put them which makes it a little difficult around dinner time.

JUST THE OTHER day I found some dirty ashtrays in my sewing cabinet and the birdcage cover stuffed in the pressure cooker.

Then there was the time I put a bag of onion in with my lingerie. If there is a faint aroma of Bermuda No. 6 about me, you'll understand, I'm sure.

In The Shadow Of The Steeple

'Smut' Critics Reveal Their Ignorance Of Kantor Novel

by WILLIAM O MCGILL

The Sunday Tribune seems, in recent weeks, to have given over the letter from the readers section in "The Magazine of Books" to people who are disturbed about obscenity and smut in current books.

The book which has come in for the most amount of criticism has been Mackinlay Kantor's "Andersonville."

If we remember that this book received a great many distinguished awards, it becomes a strange comment on contemporary literature.

* * *

"ANDERSONVILLE" is a hard book to read — that is, there is a great deal that is shocking, in the sense that a blow on the head is shocking.

"Andersonville" is disturbing because it is an almost clinical study of the way in which men react to hopeless imprisonment.

"Andersonville" is especially shocking and disturbing because there is every reason to believe that it could have been an on-the-spot clinical study of the persons involved.

* * *

THIS STORY of degradation and of the flowering of hope illustrates a comment by Cheslow Mirosz, in "The Seizure of Power."

"We are being wronged and persecuted by people like ourselves who are equally wronged."

If the Confederate prison for Union troops at Andersonville is a legitimate source for a novelist (and certainly whatever the experience of humanity has been is legitimate material for a novelist), it seems difficult to ask him to treat the situation in an untrue manner.

THE COMMENTS in letter section of "The Magazine of Books" remind me all too much of the year the septic system needed attention at our church junior camp.

There were all manner of peculiar little snickers when we tried to explain the situation. All too often it appeared that these 9, 10 and 11 year-olds were the children of prurient parents who had taught them ridiculous euphemisms for the normal functions of the body.

They had almost no basis which to think intelligently & honestly about the vital processes of sanitary engineering.

ON A GIANT canvas, in a mammoth novel, Kantor attempted to tell what happened to thousands of men in a prison area which should have encompassed hundreds, and what happened to the people who were involved in administering that kind of charnel-house and the people who lived near it.

Of course, I am not defending obscenity in literature.

But it is disturbing to read such letters and to realize that almost none of the people writing seem to have read the book with any understanding of the story.

This could tell what happened at Dachau, or north of the Yalu River, or behind "the wall" in Warsaw — it could even be the story of what happened to some of our prisoners of war.

Just Around The Corner From Patty McArdle

Cheap Film Ad Angers Patty

Dear Peg:

Reaching the theatre page, as I read the evening paper last night, I was disgusted and a little angry to see that Hollywood has offered to the theatre-going public another lurid moving picture, glorifying and sensationalizing that small percentage of young people who find "growing up" such a problem.

Filling in almost a quarter of the page, was an ad announcing the new movie "Teenage Rebel." In the middle of the ad stood a pretty young girl with sad, downcast eyes, obviously dressed for leaving home.

The copy to the left of her excused her behavior with, "My mother—I call her mother only because I don't know what else to call her! My father—Now there's always some woman at the house—he says they 'just drop in'! Myself—All I know is—no matter what I do, it's wrong!"

But, the copy to the right of her was the real clincher.

In big shocking type, the words blasted, "If you're 16 you're old enough to see it!"

And, in quieter, more academic-looking type, the final shaft: "Recommended for everybody except parents with a guilty conscience!"

I don't doubt for a minute in many instances and in varying degrees parents are responsible for their children's feelings of insecurity, unwantedness and rebellion during the teenage years, but to encourage youngsters to believe that these feelings are unavoidable, universal, acceptable and even attractive is immoral.

What parents, ministers and educators want children to learn at this crucial and difficult time in their lives is that these feelings (even though sometimes justified) can be overcome by cooperation, self control, love and consideration for others and a growing faith in themselves and God.

Any amateur psychologist (better known as "A Mother") knows that telling the naughty child over and over how naughty he is results in more naughtiness, or repeatedly calling the child a rascal gives him the idea that being a "rascal" is acceptable behavior and in fact even amusing to adults.

By the same token, to hold up the young, wistful-faced, long-haired, leather-jacket and blue jean rebel as an example of the kind of person adults believe representative of teenagers simply encourages many to pattern themselves after this type.

This is a strong statement but I believe that movies like "The Blackboard Jungle," "Rebel Without Cause, "Crime in the Streets" and now "Teenage Rebel" have, if anything, encouraged the knife-yielding gangs, the vandalism, and the streetwalking which have been on the increase for the last few years.

As a matter of fact, in the very same issue of the paper, I was reading the story of two gangs known as "The Seminoles" and "The Lords" who were being picked up by the police to avoid a similar incident to the shooting of the young boy we read about just recently.

Any medium that has so wide an appeal and is available to so many thousands of people as the motion pictures has a grave responsibility especially when making a picture about youngsters for youngsters.

My candid opinion is that they have failed miserably to produce movies that are enjoyable, worthwhile and appealing to teenagers.

Why can't we do something about it?

My love,
Patty.

P. S.—Mr. and Mrs. Pumpkineater took an "honorable mention" in the school contest.

How We Do It

This is the third of a series to acquaint you with your Community Child Guidance Centers. Plans are going forward toward establishing a Center in the Northwest Suburban area. The names are fictionized. The places and incidents are real.

INSERT ITALICS

(Summary: Helen Marks visited a guidance center and discovered a group of parents under the leadership of the counselor participating in a discussion of everyday problems with children. He had recommended to Mr. and Mrs. George that they stay out of the fights between their 2 children, 9½ year old Carol and 8 year old Susan. He explained that the behaviour of the children was prompted by a hidden desire to keep the parents busy with them and that their concern provided an excellent audience which must be removed in order for the girls to develop a better relationship.)

Three weeks later, Helen again visited the community child guidance center at Haven School. Evanston, this time accompanied by her husband and a neighbor couple. Helen was curious to find out how Mr. and Mrs. George had succeeded in carrying out the "hands off" policy recommended by the counselor.

The counselor opened the discussion by asking Mrs. George how things had been going.

* * *

"WELL," replied Mrs. George, "At first, it was pretty awful. The girls were both late to school the first morning and they cried and blamed me. Then the last of the week they settled down a little and have been late twice since then, but I think they quarrel less. A funny thing happened, though. The teacher called to find out if there were some reason for Susan's being late. When I told her that I felt it was Susan's business to get to school on time, she asked me if I had been attending these guidance sessions! She seemed real pleased."

* * *

THE COUNSELOR replied that many teachers had found pointers for handling classroom situations through discussions at the centers. He then asked if the parents had kept out of the quarrels. Mr. George said the morning confusion was too much for him. He had yelled at the girls the second morning and they were quite subdued afterward. But Mrs. George had been upset by his not following the rules, so he had been leaving earlier for work to avoid any situation.

The counselor asked if this had affected the girls. Their mother said that at first they were worse than ever.

"I finally did what you told another mother 2 weeks ago — I just left the house for a walk after their breakfast was on the table. I don't know what happened after I left. This last week they have been pretty prompt."

When the counselor asked if she had interfered in the fights, she admitted that she couldn't help it when Carol picked on Susan and Susan screamed. The counselor asked if Susan provoked Carol to fight. Mrs. George said that was impossible since Susan is a very good girl.

* * *

THE GIRLS entered the counseling room and sat down. Under questioning, they admitted that they quarreled some but not very much. The counselor asked what mother and father did when they quarreled and Susan answered with indignation, "They just walk out!"

"So it isn't so much fun to fight anymore?"

Susan answered, "No! They don't pay any attention." Helen was impressed with the freedom with which the girls spoke, but even more by the fact that the children seemed to understand what was going on behind their behaviour better than the adults did.

The counselor asked who started the fights and each girl pointed to the other. He then asked, "Susan, I wonder if it could be possible that you start the fights in order to put Carol in a bad light." Susan shook her head and suddenly seemed about to cry.

When the parents had returned to the room, the counselor explained that Susan had recognized her part in the quarrels. He said that Susan starts the quarrels because the girls are competing for mother's good opinion.

When Carol is scolded for fighting, Susan, by implication is "the good girl." Actually, Carol isn't a "Bad girl," but a discouraged one. She feels she can't compete with Susan's goodness and takes the less useful way to gain attention. Carol needs a great deal of encouragement and Susan needs to be treated less like a little "princess," counselor said.

Father burst in at this point — "But that's what I call her — my little princess!"

* * *

THE COUNSELOR remarked that it could be seen how Susan had learned to use her princess-like behaviour to keep father, mother and Carol in her service, to the point of making Carol her whipping-boy. He continued that the greatest harm a parent can do to his children is to try to find out who is in the wrong. When a parent fails to stay out of the fights all the time, he makes it necessary for the child to redouble his efforts in the hope that this time, maybe it will work.

It was again recommended to the parents that they stay out of the fights. Carol wouldn't really hurt Susan. It was also suggested that they find something Carol could do which would give her a sense of importance in the family.

Helen again left the center with a feeling of intense excitement and renewed courage to try again with her own problem.

To be continued.

Lax Enforcement?

Rand rd. U.S. 12 is still a dangerous road to travel.

Although there have been few accidents since the 45-mile limit has been imposed and the road has been patrolled, motorists are increasingly prone to ignore the speed regulations, and, sorry to say, women seem to constitute the greatest number of offenders.

WHILE THERE is spasmodic police patrol during the day, there is little or none between the hours of 6 and 9 in the morning and after 4 in the afternoon.

Motorists know this and take advantage of this laxity in highway patrol, going on their way at rates up to 80 mph, at great hazard to themselves and to those who wish to abide by the regulations.

UNLESS BETTER enforcement of the highway regulations is kept at all hours, we can look for another epidemic of serious accidents, especially with the approach of winter, shorter daylight hours and hazardous road conditions.

It appears that we need a few tragedies and fatalities to awaken the public and those responsible for highway safety to jar us into action again.

A Motorist who believes in obeying traffic laws.

On Conscience

After reading your nauseating (Register Reviews) editorial of October 11, I would like to answer your questions asked:

First of all, you are assuming the boys guilty, even though they have not been brought to trial. Is this not a democracy, where no man is guilty until proven such?

* * *

YOU ASK if anything can be good in the bodies and minds of these young men? Can anything be good in the minds of people like you, who are so ready to believe the worst in others instead of trying to look a little farther and seeing the good. Remember God created each of us to His own Image and Likeness.

Your baseball bat approach sounded very much like Communistic Russia's ideas to me. I thought in this country of ours people had ideals and a greater love for our free democracy than to stoop to a level of using such forms of punishment.

* * *

EVEN IF these boys are proven innocent, the scum you printed can never be retracted to help build their lives up again, then you wonder why there is so much juvenile delinquency. It is because of people like you, who are so ready to see the worst and tear down rather than look a little beyond and see the good that is in each and every one of us, and lend a helping hand to build up and bring forth this good.

I would hate to have what you printed about these boys on my conscience, but I am consoled with the fact that there aren't too many people like you in this world. Most people don't enjoy reading scum of this sort because I believe they know that not one of us in this world is perfect.

We have all done wrong at one time or another, and unless I was perfect or unless I was God I would never take it upon myself to judge the lines and actions of others.

Mrs. Donald M. Anderson, Sr.

PALATINE — Miss Alma Voss and William H. Zoellick of Des Plaines were married at St. Paul's church Nov. 7. Following the ceremony the bridal party were taken around town at a swift, merry pace in carriages driven by Louis Luerssen, Louis Porep, Otto Mess, Henry Langhorst. They stopped long enough at Moser's photo gallery to have pictures taken. Tables had been laid in Woodman hall and the guests partook of a sumptuous wedding supper. It was a large merry crowd and kept time until morning to the tripping music. The groom is fortunate in securing one of Palatine's fairest maidens and Palatine is fortunate in being able to number them among her citizens.

ARLINGTON Heights — Rev. J. T. Ford. Dear Brother: I have talked to my son Henry in regard to the $500 of Mrs. Olmsted's and with George and both are in favor of giving that amount to the fund for the new Presbyterian church. I am inclined to think that the best time to build would be during 1907, if it is decided to build at all, as the old building would need a good many repairs. If a suitable building could be erected for about $6,000 complete and $4000 is already subscribed, with the $500 of Mrs. O., that will leave a debt of $1500. I would pledge myself to give ¼ of amount needed to pay balance in two years time, so as to have the church free from debt. — J. N. Olmsted.

Discussion waxed warm for several minutes. Why shouldn't it when a man like George Hartford has waited seven years before bringing his grievance to the village board.

November 8, 1946

In a landslide that even surprised the Republican chieftains, the G.O.P. captured the majority of the Cook county offices, all of the state and complete control of the next congress.

The ban on a homecoming bonfire and snake dance placed by the Arlington Heights village officials was disregarded so far as the snake dance was concerned Friday evening. The students had boasted that they would parade through the municipal building. The fire department was on hand with hose attached to fire hydrants to defend the building. The parading students avoided the village hall.

ROSELLE experienced its second disastrous fire of the year Sunday morning when fire threatened to destroy the Charles Jensen building, a large two and a half story frame structure housing the Roselle Shoppe and the Gieseke Electrical Shop.

The more than 40 business and professional men and women who attended the meeting held in the Bensenville village hall last Friday, voted to organize a chamber of commerce and appointed Francis E. Suter temporary chairman.

Countryside Farm School Offers Hope To Northwest Area's Retarded Children

HELPING THESE YOUNGSTERS learn to tell time is the school's assistant director, Marge Nehrbass. Enrollment in the school, supported chiefly by voluntary contribution, is open to any handicapped child in the Palatine, Arlington Heights, Mount Prospect area.

JUST A FEW WEEKS AGO this child could not speak at all. But with patient and continued work by Mrs. Nehrbass, the child is making progress, can now say "ah" and "why," a genuine achievement for this handicapped youngster.

THE SCHOOL'S SELF HELP PROGRAM includes a session with "Helpful Hugo," the doll being held by girl at far right. Hugo is the tool with which the children are taught how to handle buttons, belts, buckles, and zippers.

THE COUNTRYSIDE ASSOCIATION, which operates the farm school, is comprised of parents and interested residents of northwest suburbs. The school program, hailed by authorities as among the Nation's most outstanding, includes training in washing dishes, ironing, and other self help projects.

David is 12.

Last year he learned to count to 10.

He never answers in complete sentences.

But Monday he stood up and said, "I am 12."

And for those who had worked with David, patiently and long, the smile on his face and the look in his eyes was reward enough.

David is a pupil at the Countryside Farm School for Retarded Children, located 2 miles east of Lake Zurich on route 22. From the highway, it looks much like any other farm in the rolling pastureland of southern Lake county.

But for the children and parents of families in Palatine, Barrington, Arlington Heights, and Mount Prospect, the school represents hope and ecouragement for a long neglected group of children.

Many handicapped youngsters are achieving, for the first time, a fuller appreciation of life and love through association with other children.

EVENTUALLY, the association hopes that the farm will become an area project for retarded children, providing them with permanent residential facilities, workshops, and a complete colony devoted to developing these children, as well as young adults, into self supporting, self sufficient, and happy members of their own community.

The Countryside Farm school is a not-for-profit, tax exempt corporation established in 1954. Its beginnings, however, had their roots in September, 1953, with Mrs. Lotte Steinfield, mother of a retarded child. She keenly felt the need for such a school and utilized her farm, starting with a short 2-hour session, 3 days a week, with 4 youngsters.

The Country-side Association an organization of parents and interested residents assumed complete direction of the school in 1954. It now has an enrollment of 12 children, 2 full-time teachers, a substitute, and 13 volunteer workers.

It is unquestionably one of the finest and best equipped schools of its kind in Illinois.

A MAJOR PROBLEM in operating such a school is cost.

It is estimated that the public school costs average $400 to $600 per pupil. But in a retarded school, even with volunteer help, it costs $1,000 and even as high as $1,200 per pupil to provide them with a professional program.

Last year, the farm school charged its pupils $55 a month, a low cost made possible through fund raising projects and volunteer gifts. This year the rate was lowered to $35 a month and, with continued community support, it is hoped that it can be reduced even more.

THE ASSOCIATION was chartered in May, 1954, and admitted to membership in the Illinois Council for Retarded Children and the National Association for Retarded Children.

In honor of National Retarded Children's Week, proclaimed by President Eisenhower for November 12 to 19, the school will hold an open house from 2 p.m. to 6 p.m. Sunday.

An area-wide appeal for support will be launched that week under the direction of Clyde E. Phelps, chairman of the association's Finance committee.

COUNTRYSIDE FARM SCHOOL for Retarded Children provides training in self help, household duties and musical expression as well as an academic program suited to the child's needs. Here a pupil leads a class in rhythm.

THE SCHOOL, LOCATED ON ROUTE 22 near Quintens rd., is the only completely professional and fully-equipped facility for retarded children in the far northwest area. Director Gwen Pittinger is shown here with the school's unique kindergarten class.

TEACHING TABLE MANNERS is only one phase of the school's program to help meet the social needs of these youngsters and to assist in developing an adjustment to their limitations.

Tri Deltas To Mark Founders' Day Nov. 14

Tri Deltas in the northwest suburban area will mark the 68th anniversary of the founding of their fraternity when they meet for luncheon Wednesday, Nov. 14, at 12:45 p.m. at The Pantry, Park Ridge.

Mrs. Kenneth A. Raus of Park Ridge, social and program chairman for the northwest suburban alumnae chapter of Delta Delta Delta, is in charge of luncheon arrangements. Decorations will feature the fraternity colors of silver, gold and blue, and the flower of Tri Delta, the pansy. Mrs. Richard E. Elling of Des Plaines, president of the group, will read the Founders' day proclamation, and conduct the traditional candle lighting service in honor of the women who founded Delta Delta Delta on Thanksgiving eve, 1888, at Boston university.

* * *

A DRAMATIZATION of the founding, titled "Written In The Stars" will be presented with Mrs. George R. Busse of Mt. Prospect and Mrs. John B. Clark of Des Plaines playing the roles of Sarah Ida Shaw and Eleanor Dorcas Pond, Tri Delta's founders. Mrs. Arthur R. Wetter of Des Plaines will narrate the sketch which was written by Mrs. Hariette Trinkle Baker of Indianapolis and presented under her direction at the fraternity's national convention in June at Coronado, Cal.

The program will close with singing of Tri Delta songs. Luncheon reservations should be made by Nov. 13, through Mrs. William DeHuszar, CL 3-7059. All Tri Deltas in Park Ridge, Des Plaines, Mt. Prospect, Arlington Heights, Prospect Heights and Rolling Meadows or Norwood Park and Edison Park are invited.

* * *

DELTA DELTA DELTA was the first women's college fraternity to be founded as a national organization. Others grew from locals or were not limited to college women at first. Today the Tri Deltas number 99 collegiate chapters and 260 organized alumnae chapters throughout the United States, Canada, Hawaii and Alaska. Initiated members exceed 58,000.

Tri Delta was one of the founders of the National Panhellenic conference and has been represented at every meeting.

Delta Delta Delta has chosen education as its major philanthrapic field, awarding approximately 2,000 scholarship totaling $225,000 since the establishment of its service projects in 1942. Scholarships are gifts, not loans. A majority of the grants have gone to unaffiliated women and the balance to Tri Deltas and members of other organizations. Tri Delta alumnae chaptersalso support a wide variety of community services.

In the Chicago area, Tri Delta alumnae groups have chosen the Cleft Palate institute of Northwestern university as their philanthropic project, and plan to raise funds for this cause through a benefit luncheon scheduled for February 14 in the Gold room of the Congress hotel. Mrs. C. H. Cooper, 209 S. George, Mt. Prospect, is benefit ticket chairman for the northwest suburban area.

The dessert recipes we are featuring today have been made by Mrs. William E. Krieg for years, and are 2 of her favorites.

One is for a Caramel Date Cake which, though mixed by hand, is simple to make. Chopped nuts, dates and brown sugar give this cake its dark color and flavor, while sour milk contributes to its light texture. A moist cake, it has excellent keeping qualities.

Another attracive feature about this cake is that it requires no frosting as part of the ingredients are reserved and used for a crumb topping. Thus the cake can be served as soon as it is removed from the oven and cooled.

Holland Rusk Delight is the other favorite dessert of Mrs. Krieg's. This delectable dessert is made in 3 parts. It has a crushed Holland Rusk crust which is covered by a creamy, rich custard. The custard is topped by a meringue sprinkled with Rusk crumbs.

This elegant dessert serves 12 to 15 persons and is truly party fare. Mrs. Krieg advises serving this dessert the day it is made.

The Kriegs live at 302 W. Circle in Prospect Heights. Mrs. Krieg is a member of the Women's guild of the Prospect Heights community church.

In The Future

A measuring-cup set has two cups, fused together at the base, so the cook can measure wet or dry items consecutively. . . . You can coat your windows with a transparent plastic to shut out ultraviolet rays. . . . A motor no wider across than a half-dollar is offered as a power plant for toys. It weighs two ounces. . . . An opener for stubborn jars fastens to the under side of any kitchen shelf. No adjustment — just slide it until the jaws grip.

Housing Vote

At a special December or January election, residents of Des Plaines and Park Ridge will go to the polls to decide whether Maine township high school will issue $425,000 in bonds to erect a motel-like building to be rented as temporary 2-year housing to new high school teachers.

Death Notices

IN MEMORIAM

In loving memory of Christ H. Wille who passed away 1 year ago November 12, 1955.
How often do we tread the path
That leads us to the grave,
Where rests the one we loved so well
But whom we could not save.
Long days, long nights, you bore your pain
Waiting for cure, but all in vain,
God saw that you were suffering
And the hills were hard to climb,
So he closed your weary eyes
And whispered "Peace be thine."
Loving wife and Children and Grandchildren

IN MEMORIAM

In memory of our son and brother, Kenneth Tesmer, November 12, 1950.
Nothing can ever take away
The love a heart holds dear;
Fond memories linger every day,
Remembrance keeps him near.
Somewhere, someday, we'll meet you
When God's great will is done;
We shall see your smile to greet us,
When he calls for us, dearest one.
Mr. and Mrs. George Tesmer and Kucera family
